

KEY INVESTOR INFORMATION

This document provides you with key investor information about this fund. It is not marketing material. The information is required by law to help you understand the nature and the risks of investing in this fund. You are advised to read it so you can make an informed decision about whether to invest.

European Short Term Government Bond Fund, a sub-fund of CBIS Global Funds plc, Class A (EUR) (ISIN: IE00B3R5XB01)

OBJECTIVES AND INVESTMENT POLICY

The fund seeks to earn income and preserve the value of your investment by investing mainly in a variety of high quality deposits denominated in Euro and fixed-income securities (bonds that pay fixed interest rates of short duration).

No more than 50% of the fund assets may be invested in deposits denominated in Euro.

The fixed income securities that the fund will invest in will be issued by governments of EU countries, Switzerland or Norway, or by supranational (international) bodies.

No more than 20% of the fund assets may be invested in non-EU supranational bodies.

These fixed-income securities will be rated investment grade or better. A rating agency gives an investment grade rating when it believes that there is a relatively low risk that the issuer of the bond will be unable to make payments.

The fund may also invest up to 30% of the fund assets in corporate bonds and debt securities issued by companies rated Baa3/BBB- or higher by a rating agency.

At times, the fund may hold cash-like instruments.

The fund only invests in accordance with Catholic responsible investing principles.

The fund may use instruments whose value is determined by changes in the value of the underlying assets they represent (derivatives). The fund may do so in order to invest more efficiently (for example to manage the duration of its investments or to reduce risks or costs).

For more information about the fund's investment policy, see **"Investment Objectives and Policies of the Funds"** in the fund's prospectus available at www.cbisonline.com.

The fund does not declare dividends. Any income arising from the fund is reinvested in the fund.

You may redeem your shares on any working day on which Irish banks are open by submitting your request to the administrator by 9:00 p.m. (Irish time).

This fund may not be appropriate if you plan to withdraw your investment within three years.

RISK AND REWARD PROFILE

These numbers rate how the fund may perform and the risk of losing some or all of your capital. Generally the potential for higher gains also means a larger risk of losses. The lowest category does not mean a risk free investment.

Historical data, used for calculating this indicator, may not be a reliable indication of the future risk profile of this fund.

The risk and reward category for this fund is not guaranteed to remain unchanged, and may shift over time.

This fund is ranked at 2 because funds of this type have experienced low rises and falls in value in the past.

Other potential risks:

- Liquidity risk - the risk that a position held by the fund cannot be traded quickly enough through dealers to prevent a loss.

- Credit risk - the risk that the issuer of a bond or other instrument may not be able to make payments to the fund as agreed or may change or restructure the terms of a bond or other instrument, causing a loss to the fund.

- Derivative risk - the value of a derivative depends primarily on the performance of the underlying asset. A small positive or negative movement in the value of the underlying asset may cause a large movement in the value of the derivative. The use of derivatives may result in substantial gains or losses for the fund.

- Interest rate risk - the value of the bonds and debt securities held by the fund will change in response to changes in interest rates. Generally, the value of these instruments will fall if interest rates rise.

- Investment risk - there can be no assurance that the fund will achieve its investment objective.

See also the description of the risks applicable to the fund in **"Risk Factors"** in the fund's prospectus.
