BACKGROUND TO THE COMPANY

The following information is derived from, and should be read in conjunction with, the full text and definitions section of the prospectus (the “Prospectus”) of CBIS Global Funds plc (the “Company”).

Structure

The Company is an umbrella fund with segregated liability between sub-funds established as an investment company with variable capital incorporated with limited liability in Ireland on 18 April 2008. The Company is regulated by the Central Bank of Ireland (the “Central Bank”) pursuant to the European Communities (Undertakings for Collective Investment in Transferable Securities) Regulations, 2011, as amended (the “UCITS Regulations”) and the Central Bank (Supervision and Enforcement) Act 2013 (Section 48(1)) (Undertakings for Collective Investment in Transferable Securities) Regulations 2015, as amended (the “Central Bank UCITS Regulations”) and was authorised by the Central Bank on 16 June 2008. The Company currently has the following sub-funds (each a “Fund” and collectively the “Funds”) as follows:

Fund Name	Date of approval by Central Bank	Launch Date
European Short Term Government Bond Fund	17 April 2009	5 May 2009
European Equity Fund	16 June 2008	9 July 2010
World Bond Fund	16 June 2008	9 July 2010
World Equity Fund	19 June 2014	20 February 2015
U.S. Core Equity Index Fund	19 June 2014	Not yet launched

A Fund may consist of one or more classes of shares. A separate pool of assets will not be maintained for each class within a Fund. Further classes of shares may be issued on advance notification to, and in accordance with the requirements of, the Central Bank.

Investment objectives

Each Fund aims to achieve its investment objective, as set out below, while spreading investment risks through investment in transferable securities and liquid financial assets in accordance with the UCITS Regulations.

The allocation of the assets of a Fund between the sub-investment managers of that Fund is at the sole discretion of Christian Brothers Investment Services, Inc. (the “Investment Manager”) and the Investment Manager may from time to time, at its discretion, determine not to allocate any of the assets of the Fund to a sub-investment manager.

In pursuing its investment objectives, each Fund shall adhere to the principles of ethical and socially responsible investing, as described in the Prospectus.

European Short Term Government Bond Fund

The investment objective of the European Short Term Government Bond Fund is to provide current income, consistent with preservation of capital through investment primarily in a diversified portfolio of high quality, Euro-denominated deposits and short term fixed-income securities, provided that not more than 50% of the net asset value of the Fund may be invested in Euro-denominated deposits.

The sub-investment managers of the Fund are ARCA Fondi SGR S.p.A. and Degroof Petercam Asset Management. Since the launch of the Fund, the Investment Manager has allocated investment management of all of the assets of the Fund to ARCA Fondi SGR S.p.A. The functional currency of the Fund is Euro.

BACKGROUND TO THE COMPANY (continued)

Investment objectives (continued)

World Bond Fund

The investment objective of the World Bond Fund is to seek to achieve sustainable income and modest capital appreciation through investment primarily in investment grade debt securities which may be sovereign, supranational, corporate, mortgage or securitised debt securities.

The sub-investment manager of the Fund is Degroof Petercam Asset Management. The functional currency of the Fund is Euro.

European Equity Fund

The investment objective of the European Equity Fund is to seek to achieve capital appreciation through investment generally in the equity securities of European issuers with a market capitalisation greater than EUR 65 million. The investments of the Fund will be diversified with strict controls on the level of investment in any particular industry to maximise the impact of individual stock selection.

The sub-investment managers of the Fund are ARCA Fondi SGR S.p.A. and Degroof Petercam Asset Management. Since the launch of the Fund, the Investment Manager has allocated investment management of all of the assets of the Fund to Degroof Petercam Asset Management. The functional currency of the Fund is Euro.

World Equity Fund

The investment objective of the World Equity Fund is to seek to achieve capital appreciation and outperform its primary benchmark index, the MSCI All Country World Index, by combining a number of different yet complementary investment approaches employed by the sub-investment managers to invest in equity securities of medium to large capitalisation issuers on a worldwide basis while minimising downside risk by focusing on companies that exhibit a high internal rate of return and avoiding speculative investment. Generally, investments will be in companies with a market capitalisation of greater than EUR 0.35 billion and the Fund will be invested primarily in major developed markets.

The sub-investment managers of the Fund are Scott Investment Partners LLP, RhumbLine Advisers and Los Angeles Capital Management and Equity Research Inc. Since the launch of the Fund, the Investment Manager has allocated investment management of all of the assets of the Fund between Scott Investment Partners LLP and Los Angeles Capital Management and Equity Research Inc. The functional currency of the Fund is Euro.

U.S. Core Equity Index Fund (not yet launched)

The investment objective of the U.S. Core Equity Index Fund is to seek to replicate the price and yield performance of the S&P 500[®] Index, an index which emphasises large-capitalisation companies.

The sub-investment manager of the Fund is RhumbLine Advisers. The functional currency of the Fund is US Dollar.

INVESTMENT MANAGER'S REPORT

European Short Term Government Bond Fund (the "Fund")

6 Month 2018 Review

The Fund returned -0.62% to trail the 80% Bloomberg Barclays Euro Aggregate Treasury Bond 1-3 Year Index/20% Bloomberg Barclays Euro Aggregate Corporate 1-3 Year Index return of -0.28%.

Performance

The Fund's Italian bond exposure provided positive results in the earlier part of 2018; however by the end of the second quarter, the Fund's exposure to Italian bonds was the primary detractor from results. Italian yields rose sharply on the front end of the curve and investors demanded a premium to hold Italian debt over other sovereign bonds. In particular, Italian bond spreads widened relative to core Euro countries due to concerns about the economic program of the new coalition government. Furthermore, concerns about the coalition government's support for aggressive spending, flat taxation and higher unemployment subsidies caused volatility in the Italian bond market.

Position and Outlook

In June, the European Central Bank ("ECB") indicated the next policy move for their monthly bond buying program will be reduced to €15 billion until year end. It is anticipated that the ECB will provide guidance to increase rates further in 2018. Based on the uncertainty across the economic landscape across Europe, the sub-investment manager of the Fund is selectively using the corporate sector to add incremental value to the portfolio as most of the sovereign debt yields are negative.

Finally, the Euro coin indicator fell to 0.48 in June (from 0.55 in May), the lowest level since November 2016. Greater caution on the part of households and corporations due to a weakened industrial cycle continues to hold back the indicator. Furthermore, the economic picture for Europe has begun to feel the effects of the slowdown in global trade due to the concerns about trade wars.

Christian Brothers Investment Services, Inc

July 2018

INVESTMENT MANAGER'S REPORT (continued)

World Bond Fund (the "Fund")

6 Month 2018 Review

For the first six months of 2018, the Fund returned -0.64% versus the Bloomberg Barclays Global Aggregate (EUR) Index's (the "benchmark")* 1.35% return.

Performance

The portfolio's overweight exposure to Italian Government bonds ("BTP") was the primary driver of underperformance for the period. The swift downturn of the Italian BTP market in late May was triggered by the refusal of two Italian political parties, Lega North and MS5, as they attempted to establish a government coalition to commit to the Euro. Adding to the uncertainty and ultimately panic, was a leaked rogue idea of issuing Italian parallel currency retail certificates (mini-BOT's), which was not backed and accepted by the ECB. It took a long time for the party leaders, Salvini and Di Maio, to drop the parallel currency story. The BTP market's credibility has been damaged and will take time to recover. For international investor interest to resurface, bond market volatility must return to a more normal level.

Additive to performance for the period was the sub-investment manager's defensive duration positioning, 3.9 vs 7.1 years. Currency exposure was also additive.

Position and Outlook

The sub-investment manager of the Fund's view is that the 10-year German bund rates should be anchored below 1.00% over the next two years. US 10-year rates have found an equilibrium level around 3.00%. The ECB will engage in long-term policy normalisation starting in 2019. The expectation is that the US Federal Reserve will end its rate hiking cycle end of 2019 that is, about four years after it had begun. Their base case scenario is for interest rates of 2.75% - 3.00% in the US and 1.00% - 1.25% in the Eurozone. US political posturing over global trade relations will impact, at the margin global growth. US inflation expectations might receive a short-term lift as a result. Investment grade spreads have not yet stabilized.

The sub-investment manager is looking for investment opportunities in primary markets and will not add to EU periphery holdings. New issue investment grade credit is becoming more attractive and they will purchase selectively. They are also looking to add high quality corporate names in USD and EUR, while avoiding corporates that combine cyclical sensitivity and large debt, avoiding or limiting exposure to automotive, food and beverage, transportation and industrial sectors while having high confidence in quality financials and insurance names.

To adapt to their new investment outlook, the Fund has shifted from its focus on relative value and hedging away interest rate and credit risk over the past two years to moving towards a high-quality portfolio that takes interest rate risk exposure again in EUR and USD markets.

Christian Brothers Investment Services, Inc.

July 2018

INVESTMENT MANAGER'S REPORT (continued)

European Equity Fund (the "Fund")

6 Month 2018 Review

During the first half of 2018, the Fund returned -0.61% net of fees, 67 basis points (bps) behind the MSCI Europe Index (the "benchmark")* return of 0.06%.

Performance

Fund returns in the first six months of 2018 were strongest in health care and energy, averaging 16.1% and 10.8% respectively. On the flip side, financial stocks in the Fund declined by 6.4% on average in Q1 and Q2 and stocks in the industrials sector were down 3.9%.

Before management fees, the Fund's return was nearly identical to the benchmark in the first six months of 2018. Since sector allocations are managed to be nearly identical to those of the benchmark, relative performance is driven exclusively by stock selection within the individual sectors. The sub-investment manager of the Fund registered superior results within health care, which has a 12% allocation in terms of the Fund's market value. The mix of health care stocks in the portfolio outperformed the average 1.3% return gain in the benchmark by nearly 15.0% during the period, contributing roughly 150 bps of excess return for the total Fund. The positive performance impacts were spread throughout several industry sub-groupings, including health care equipment and services companies, facilities, pharmaceuticals and biotechnology stocks. Most of those stock selection gains were offset by relative return shortfalls spread among the industrials, consumer discretionary, materials and information technology sectors. Other trends of note during the six month period include the loss of 34 bps due to the Fund's underweight in aerospace and defense company holdings and 35 bps of return added via the absence of tobacco stocks.

There were some noticeable differences in performance trends between the first three months of the year and the most recent quarter. The Fund's absolute return was negative in the first three months (-2.52%) of the year but remained ahead of the broad European equity market which registered a return of -4.18%. In Q2, the Fund's value increased by 1.96% but trailed its benchmark index return by nearly 250 bps. The relative performance shortfall in Q2 snapped a string of recent quarters with the Fund finishing well ahead of its benchmark. At 30 June 2018, the Fund has positive excess returns for 1 year (34 bps), trailing 3 years (50 bps annualised), and 5 years (100 bps).

Position and Outlook

The Fund's holdings encompass large, mid and small cap stocks. The weighted average market cap of the portfolio is 40% below the benchmark. Historically, the sub-investment manager of the Fund adds significant excess return through the small and mid cap holdings. The overall price-earnings and price-to-book ratios for the portfolio are slightly lower than the benchmark, indicating a small value tilt. Sector weights are nearly identical to the benchmark by design. The sub-investment manager targets excess return through a combination of quantitative analytical models and fundamental research to select superior stocks within the individual sectors.

Nearly 30% of the holdings measured by market cap are in French domiciled companies; the index has 17.3%. At 17.8%, the Fund's investments in UK companies is underweight the index by more than 9%. Italy is overweight by 2.8% and Germany underweight by about 5%. The portfolio has an active share of 74.2%.

*References to benchmarks are for illustrative purposes only. There is no guarantee that the Fund will outperform this benchmark

Christian Brothers Investment Services, Inc.

July 2018

INVESTMENT MANAGER'S REPORT (continued)

World Equity Fund (the "Fund")

6 Month 2018 Review

Over the first six months of 2018, the Fund returned 3.36% net of fees, 0.65% more than the MSCI All Country World Index (ACWI) benchmark (the "benchmark")* return of 2.71%.

Performance

The Fund benefitted by being overweight in the strong performing energy sector, underweight in weak financial stocks, and from a good mix of holdings in information technology (19.6% allocation) which generated returns averaging 12.7% since year end 2017. Energy sector holdings declined in value by 6.6% in Q1 but then rebounded +15.4% in the April through June quarter.

Financial company stocks declined in value by an average of -3.6% during the first half of 2018; the Fund's significant underweight in this sector generated 40 basis points (bps) of excess return for the six month period. Excess return generated within consumer staples totaled 58 bps year to date in 2018, 24 bps of which is attributable to the absence of tobacco stocks. Within health care, the Fund benefitted from having few weak performing pharmaceutical holdings and a larger than market weight in better performing health equipment companies.

The rebound in relative return for the Fund in 2018, albeit modest at this point, is welcome news after a very disappointing 2017. It is mostly attributable to a significant spike in outperformance (more than 300 bps) by sub-investment manager, Scott Investment Partners LLP ("Scott"), in the most recent three month period, though Los Angeles Capital Management and Equity Research Inc. ("LA Capital") is also ahead of benchmark year to date in 2018. In 2017, both sub-investment managers lagged the benchmark but Scott was much further behind. So far in 2018, both sub-investment managers are ahead of the benchmark but Scott's return is about 180 bps higher than LA Capital. For the combined six month period, the Fund benefitted almost equally from both sector allocation and favorable stock selection results within the sector groupings. Scott's concentrated portfolio, lacking financials and significantly overweight in energy and consumer discretionary, drives the Fund's sector weight imbalances relative to the benchmark. Both sub-investment managers strive to add significant value with specific stock selection results within the industry groupings.

On a 12 month trailing basis, the Fund is slightly ahead of the benchmark at 30 June 2018, but is behind by 170 bps in three year annualised return.

Position and Outlook

The Fund has more than 400 securities, the vast majority held exclusively by the sub-investment manager, LA Capital, utilising a quantitative risk controlled investment strategy. The high conviction portfolio managed by Scott continues to target 45 to 55 names. Scott currently believes, as they have, since Fund inception, that banks and most financial stocks around the globe are fully or over-valued; thus they have zero holdings in financials. The allocation within the benchmark index exceeds 18%. They maintain significant overweights to energy, consumer discretionary and health care – consistent with the philosophy that global economic growth and wealth creation in the long term will be driven by these groupings of industries and companies.

Approximately 50% of the Fund holdings are US domiciled, close to the benchmark index weight. There are no significant regional or individual country allocation bets within the Fund relative to the overall universe of potential investments in the benchmark. The 1.8% overweight to Canada and 1.5% overweight in France are the largest differences for individual countries. As mentioned previously, the sector allocation bets can be significant, driven primarily by the fundamental stock picking sub-investment manager. The Fund currently maintains underweights in financials, industrials, telecom and utilities – with offsetting overweights in energy and consumer discretionary, and other sectors to a lesser extent. Both sub-investment managers utilise value-oriented metrics for security selection but are committed to seeking above average growth potential for their investments.

INVESTMENT MANAGER'S REPORT (continued)

World Equity Fund (the "Fund") (continued)

Position and Outlook (continued)

The Fund's composite 12 month trailing price-earnings ratio increased recently to 21.6, and has now advanced to a level above the average in the benchmark index. We are encouraged by the recent rebound in relative performance and remain confident in the managers' ability to post better than market returns over complete market cycles.

*References to benchmarks are for illustrative purposes only. There is no guarantee that the Fund will outperform this benchmark.

Christian Brothers Investment Services, Inc.

July 2018

HALF YEARLY MANAGEMENT REPORT

Business review

The results of operations are set out in the Statement of Comprehensive Income. The assets under management are set out in the Statement of Financial Position.

Further information on risk management objectives and policies is detailed below.

Dividends

There were no dividend distributions in respect of the Funds during the financial period under review. Accordingly, income and capital gains arising in respect of the Funds were reinvested in the Funds and are reflected in the net asset value per share of the Funds.

Significant events during the financial period

Please refer to Note 14 for details of significant events during the financial period.

Risk management objectives and disclosures

The Company's investment activities expose it to various types of risk, which are associated with the financial instruments and markets in which it invests. Details of the risks inherent in investing in the Company are disclosed in Note 4 to the financial statements.

Related party transactions and connected party transactions

Information on related and connected party transactions and changes during the financial period is given in Note 7 to the financial statements.

NOTES TO THE FINANCIAL STATEMENTS

1. Accounting policies

The principal accounting policies and estimation techniques applied in the preparation of these financial statements are set out below. These policies have been consistently applied to all the financial periods presented, unless otherwise stated.

Basis of preparation

The financial statements of CBIS Global Funds plc (the “Company”) presented are unaudited condensed financial statements for the six month financial period ended 30 June 2018. These condensed financial statements for the financial period ended 30 June 2018 have been prepared in accordance with FRS 104 “Interim Financial Reports” (“FRS 104”), Irish statute comprising the Companies Act 2014, the European Communities (Undertakings for Collective Investment in Transferable Securities) Regulations, 2011, as amended (the “UCITS Regulations”) and the Central Bank of Ireland (the “Central Bank”) (Supervision and Enforcement) Act 2013 (Section 48(1)) (Undertakings for Collective Investment in Transferable Securities) Regulations 2015, as amended (the “Central Bank UCITS Regulations”). These unaudited condensed financial statements should be read in conjunction with the audited financial statements for the financial year ended 31 December 2017 which have been prepared in accordance with FRS 102 “The Financial Reporting Standard applicable in the United Kingdom and the Republic of Ireland” (“FRS 102”) and Irish statute.

The financial statements as at 30 June 2018 have been established based upon the last available NAV, which was 29 June 2018 for the Funds.

The format and certain wordings of the financial statements have been adapted from those contained in Irish statute so that, in the opinion of the Directors, they more appropriately reflect the nature of the Company’s business as an investment fund.

The Company has availed of the exemption available to open-ended investment funds under Section 7 “Statement of Cash Flows” of FRS 102, not to prepare a cash flow statement on the basis that substantially all of the Company’s investments are highly liquid and carried at fair value, and the Company provides a statement of changes in net assets attributable to redeemable participating shareholders.

The significant accounting policies and estimation techniques adopted by the Company for the six month financial period ended 30 June 2018 are consistent with those adopted by the Company for the annual financial statements for the financial year ended 31 December 2017.

During the six month financial period ended 30 June 2018, the World Bond Fund invested in credit default swaps, which were not held at 31 December 2017. The accounting policy for credit default swaps is outlined below:

Swap Instruments

Swap Instruments are recognised at fair value on the date on which the derivative contract is entered into and are subsequently remeasured at their fair value. Fair values are obtained from quoted market prices in active markets, including recent market transactions, and valuation techniques, including discounted cash flow models and options pricing models, as appropriate. All derivatives are carried as assets when fair value is positive and as liabilities when fair value is negative. Movement in the fair value of the swap instruments and interest paid and earned from the swap instruments are recognised in the Statement of Comprehensive Income under ‘Net (losses)/gains on financial assets and financial liabilities at fair value through profit or loss’.

Credit Default Swaps

A Fund may enter into credit default swap agreements, provided that (i) the credit default swap agreement must be subject to daily valuation by the Fund and independently verified at least weekly, and (ii) the risks attached to the credit default swap must be independently assessed on a half-yearly basis and the report must be submitted to the Directors for review. A Fund may be either the buyer or seller in a credit default swap transaction. The “buyer” in a credit default contract is obligated to pay the “seller” a periodic stream of payments over the term of the contract provided that no event of default on an underlying reference obligation has occurred. If a Fund is a buyer and no event of default occurs, the Fund will lose its investment and recover nothing. On the other hand, if the Fund is a buyer and an event of default does occur, the Fund (the buyer) will receive the full notional value of the reference obligation that may have little or no value. Conversely, if the Fund is a seller and an event of default occurs, the Fund (the seller) must pay the buyer the full notional value, or “par value”, of the reference obligation in exchange for the reference obligation.

NOTES TO THE FINANCIAL STATEMENTS (continued)

1. Accounting policies (continued)

Basis of preparation (continued)

Swap Instruments (continued)

Credit Default Swaps (continued)

As a seller, a Fund receives a fixed rate of income throughout the term of the contract, which typically is between six months and three years, provided that there is no default event. If an event of default occurs, the seller must pay the buyer the full notional value of the reference obligation.

2. Cash at bank and bank overdraft

Cash at bank and bank overdrafts held by the Company are deposited with BNY Mellon SA/NV (the “Global Sub-Custodian”). The ultimate parent company of the Global Sub-Custodian is the Bank of New York Mellon Corporation, a large American financial institution listed on the New York Stock Exchange whose long-term senior debt rating by Standard and Poor’s was A at the end of the financial period (31 December 2017: A).

The margin cash of the European Short Term Government Bond Fund is held with UBS Limited, whose short term security rating by Standard & Poor’s was A-1 at the end of the financial period (31 December 2017: A-1). The margin cash of the World Bond Fund is held with Societe Generale International Limited and BNP Paribas, whose short term security rating by Standard & Poor’s was A-1 (31 December 2017: A-1) and A-1 (31 December 2017: A-1) respectively, at the end of the financial period.

The Central Bank (Supervision and Enforcement) Act 2013 (Section 48(1)) Investor Money Regulations 2015 for Fund Service Providers and the Central Bank (Supervision and Enforcement) Act 2013 (Section 48(1)) Client Asset Regulations 2015 for Investments Firms (together, the “Regulations”) came into effect on 1 July 2016. The Company has adopted the fund assets model under the Regulations. Accordingly, subscription and redemption monies are channeled through an umbrella cash collection account in the name of the Company.

3. Share capital

Authorised

The Directors are empowered to issue up to five hundred billion shares of no par value in the Company at the net asset value per share on such terms that they may think fit.

Subscriber shares

Two subscriber shares are in issue. Christian Brothers Investment Services, Inc. (the “Investment Manager”) and Mr. David L. Skelding each hold one subscriber share. The subscriber shares do not form part of the net asset value of the Company and are thus disclosed in these financial statements by way of this note only.

Redeemable participating shares

The issued redeemable participating share capital is at all times equal to the net asset value of the Company. Redeemable participating shares are redeemable at the shareholder’s option and are classified as financial liabilities.

The Company’s capital is represented by these redeemable participating shares with no par value and each carrying one vote. They are entitled to dividends and to payment of a proportionate share based on the Company’s net asset value per share upon redemption. The minimum initial investment per shareholder in a Fund shall be EUR 50,000 in the case of classes whose functional currency is Euro and USD 65,000 in the case of classes whose functional currency is US Dollar and the minimum subsequent investment shall be EUR 5,000 in the case of classes whose functional currency is Euro and USD 6,500 in the case of classes whose functional currency is US Dollar. The relevant movements are shown in the statement of changes in net assets attributable to holders of redeemable participating shares.

4. Financial risk management

Company risk

The Company is exposed to various risks arising from the financial instruments it holds. The Investment Manager’s overall risk management programme focuses on the unpredictability of financial markets and seeks to minimise potential adverse effects on the Company’s financial performance.

NOTES TO THE FINANCIAL STATEMENTS (continued)

4. Financial risk management (continued)

Company risk (continued)

The Investment Manager does not oversee individual security portfolios directly, but rather after review of prospective managers for each Fund mandate, selects sub-investment managers which have in place risk management programmes that seek to limit the potential adverse effects of these risks on the Funds' financial performance.

The selection and monitoring process for sub-investment managers involves a 'request for proposal' review, as well as ongoing monthly and quarterly reporting, conference calls and face-to-face meetings with each sub-investment manager once selected.

Global exposure

UCITS funds are required to monitor exposures on a daily basis by utilising either the commitment approach or the value at risk ("VaR") approach when financial derivative instruments ("FDI") are held by the Funds. The sub-investment managers utilise the commitment approach in monitoring the exposures of the Funds when FDI are held as they are satisfied that the market risk can be adequately monitored through this method.

Although permitted to employ FDI, the sub-investment managers of the European Equity Fund, the World Equity Fund and the U.S. Core Equity Index Fund do not currently propose to employ FDI for either efficient portfolio management purposes or for investment purposes. Each sub-investment manager will submit a risk management process to the Central Bank in accordance with the Central Bank UCITS Regulations prior to the engaging in FDI transactions in respect of the Fund it manages. The Funds will not invest in FDI until such time as a risk management process has been submitted to and cleared by the Central Bank by the relevant sub-investment manager.

As at the financial period end, one of the sub-investment managers of the European Short Term Government Bond Fund, ARCA SGR S.p.A. and the sub-investment manager of the World Bond Fund, Degroof Petercam Asset Management, have each submitted a risk management process to the Central Bank in accordance with the Central Bank UCITS Regulations.

Each Fund's activities expose it to a variety of financial risks: market risk (including market price risk, interest rate risk and currency risk), credit risk and liquidity risk.

The main risks arising from the company's financial instruments are summarised below.

Market risk

a) Market price risk

Market price risk is the risk that the fair value of a financial instrument will fluctuate because of changes in market prices (other than those arising from interest rate risk and currency risk), whether those changes are caused by factors specific to individual financial instruments or its issuer, or other factors affecting similar financial instruments traded in the market. The Company seeks to mitigate market price risk through a variety of techniques including diversification of holdings and investment limitation guidelines agreed with sub-investment managers.

b) Interest rate risk

Interest rate risk is comprised of fair value interest rate risk and cash flow interest rate risk. Fair value interest rate risk is defined as the risk that the fair value of a financial instrument will fluctuate because of changes in market interest rates. This risk arises in respect of financial instruments whose fair value is affected by changes in interest rates. Cash flow interest rate risk is the yield risk arising from changes in interest rates i.e. change in interest rates would have a direct impact on the yield generated by a Fund over the financial period.

c) Currency risk

Currency risk is the risk that the fair value of a financial instrument will fluctuate because of changes in foreign exchange rates. The risk arises on financial instruments that are denominated in a currency other than the functional currency in which they are measured. The sub-investment managers monitor the currency exposure each dealing day in accordance with the Prospectus.

NOTES TO THE FINANCIAL STATEMENTS (continued)

4. Financial risk management (continued)

d) Credit risk

Credit risk is the risk that one party to a financial instrument will cause a financial loss for the other party by failing to discharge an obligation. This includes counterparty risk and issuer risk.

e) Liquidity risk

Liquidity risk is the risk that the Company may not be able to generate sufficient cash resources to settle its obligations in full as they fall due or can only do so on terms that are materially disadvantageous.

The Company is exposed to daily cash redemptions of redeemable participating shares. The Company therefore invests its assets in investments that are traded in an active market and can be readily disposed of. Listed securities held by the Funds are considered readily realisable, as they are listed on a stock exchange or dealt on a regulated market.

Fair value estimation

Under FRS 102, the Company is required to classify fair value measurements using a fair value hierarchy that reflects the significance of the inputs used in making the measurements.

The fair value hierarchy has the following levels:

- Level 1: The unadjusted quoted price in an active market for identical assets or liabilities that the entity can access at the measurement date.
- Level 2: Inputs other than quoted prices included within Level 1 that are observable (i.e. developed using market data) for the asset or liability, either directly or indirectly.
- Level 3: Inputs are unobservable (i.e. for which market data is unavailable) for the asset or liability.

The level in the fair value hierarchy within which the fair value measurement is categorised in its entirety is determined on the basis of the lowest level input that is significant to the fair value measurement in its entirety. For this purpose, the significance of an input is assessed against the fair value measurement in its entirety.

If a fair value measurement uses observable inputs that require significant adjustment based on unobservable inputs, that measurement is a level 3 measurement.

Assessing the significance of a particular input to the fair value measurement in its entirety requires judgement, considering factors specific to the asset or liability. The determination of what constitutes “observable” requires significant judgement by the Investment Manager. The Investment Manager considers observable data to be those market data that are readily available, regularly distributed or updated, reliable and verifiable, not proprietary, and provided by independent sources that are actively involved in the relevant market.

NOTES TO THE FINANCIAL STATEMENTS (continued)
4. Financial risk management (continued)
Fair value estimation (continued)

The following tables analyse within the fair value hierarchy the Funds' financial assets measured at fair value as at 30 June 2018 and 31 December 2017:

30 June 2018

The Company held no Level 3 investments as at the financial period ended 30 June 2018 and the financial year ended 31 December 2017.

NOTES TO THE FINANCIAL STATEMENTS (continued)**5. Operating expenses*****Investment management fee***

Pursuant to the investment management agreement between the Company and the Investment Manager, the Company pays the Investment Manager an annual investment management fee of:

Fund	Fee expressed as % of the net asset value
European Short Term Government Bond Fund	Up to 0.25%
World Bond Fund	Up to 0.65%
European Equity Fund	Up to 1.25%
World Equity Fund	Up to 1.10%

The investment management fee is calculated and accrued on each dealing day and paid quarterly in arrears. In addition, the Investment Manager is entitled to be reimbursed its reasonable vouched out-of-pocket expenses. Each Fund shall bear pro rata its share of such out-of-pocket expenses. Details of the investment management fee accrued and expensed can be found on the Statement of Financial Position and Statement of Comprehensive Income, respectively.

The Investment Manager shall discharge the fees and expenses of the sub-investment managers out of its investment management fee.

Administration fee

The Company has appointed BNY Mellon Fund Services (Ireland) Designated Activity Company (the “Administrator”) to act as administrator, registrar and transfer agent of the Company. The Administrator receives an administration and transfer agent fee of up to 0.10% per annum of the net asset value of each of the Funds, subject to a minimum annual fee for each Fund of USD 40,000. The fee is calculated and accrued on each dealing day and paid monthly in arrears. In addition, the Administrator is entitled to be reimbursed its reasonable vouched out of-pocket expenses, transaction and account fees. Details of the administration fee accrued and expensed can be found on the Statement of Financial Position and Statement of Comprehensive Income, respectively.

Depositary fee

The Company has appointed BNY Mellon Trust Company (Ireland) Limited (the “Depositary”) to act as the depositary to the Company. The Depositary’s fee comprises a fee of up to 0.02% per annum of the net asset value of each of the Funds exclusive of transaction charges which are at normal commercial rates, subject to a minimum fee of USD 10,000 per Fund per annum. Each Fund may have one or more separate sub-accounts within each Fund for account management purposes. An annual maintenance fee of USD 3,000 per account is payable.

The Depositary’s fee is accrued and calculated daily and paid monthly in arrears. In addition, the Depositary is entitled to be reimbursed its reasonable fees and customary agent’s charges paid by the Depositary to any sub-custodian (which are charged at normal commercial rates) together with value added tax, if any, thereon. Details of the depositary fee accrued and expensed can be found on the Statement of Financial Position and Statement of Comprehensive Income, respectively.

Shareholder expenses

A transaction charge of up to 3% of repurchase monies may, at the sole discretion of the Investment Manager, be deducted and retained by a Fund to cover the Company’s estimate of the costs of disposing of securities to fund a repurchase. There was no transaction charge deducted from repurchase monies for the financial period ended 30 June 2018 or 30 June 2017.

Distribution fees

The Investment Manager is entitled to a fee in respect of its distribution services of up to 0.55% per annum of the average net asset value of that Fund. The Investment Manager has agreed to waive this fee for the financial period ended 30 June 2018 (30 June 2017: waived).

Rebate

In order to maintain the Company’s total expense ratios (“TER”) at a competitive level with regard to comparable funds in the market place, the Investment Manager has voluntarily undertaken to pay the Company a sum equivalent to the percentage amount, if any, by which the TER of each Fund exceeds an agreed TER limit.

NOTES TO THE FINANCIAL STATEMENTS (continued)
5. Operating expenses (continued)
Rebate (continued)

The TER limit for each Fund, for the financial periods ended 30 June 2018 and 30 June 2017 is as follows:

Fund	% of the net asset value
European Short Term Government Bond Fund	0.45%
World Bond Fund	0.85%
European Equity Fund	1.55%
World Equity Fund	1.30%

The Investment Manager may, at its sole discretion, end this agreement at any time.

6. Financial assets and financial liabilities at fair value through profit or loss

An analysis of financial assets and financial liabilities at fair value through profit or loss is as follows:

NOTES TO THE FINANCIAL STATEMENTS (continued)

7. Related party and connected person transactions

a) Related party transactions

Mr. Jeffrey A. McCroy is President and Chief Executive Officer of the Investment Manager and Chairman of the Company. Mr. David Skelding was Executive Vice President and General Counsel of the Investment Manager with responsibility for all legal matters until 30 March 2018. Mr. Neal Berkowitz was Senior Vice President and Chief Financial Officer of the Investment Manager until his departure on 30 March 2018. Mr. Neal Berkowitz resigned as Director of the Company on 9 April 2018. There were no Directors' fees paid to them by the Company for the financial period ended 30 June 2018 (30 June 2017: Nil). Details of the Directors' fees charged during the financial period and payable at financial period end are detailed in the Statement of Comprehensive Income and Statement of Financial Position, respectively.

Investment management fees charged during the financial period and payable at financial period end are detailed in the Statement of Comprehensive Income and Statement of Financial Position, respectively. Expense reimbursement by the Investment Manager and reimbursement receivable at financial period end are detailed in the Statement of Comprehensive Income and Statement of Financial Position, respectively.

Other than those noted in Note 3 to the financial statements, the Directors had no interests in the shares of the Company during the financial periods ended 30 June 2018 and 30 June 2017.

b) Connected person transactions

In accordance with the requirements of Chapter 10 of the Central Bank UCITS Regulations, all transactions carried out with the Company by the Depositary and the delegate or sub-delegate of the Company or the Depositary, and any associated or group company of the Company, the Depositary or such delegate or sub-delegate ("connected persons") must be conducted at arm's length and be in the best interests of shareholders. The Directors are satisfied that there are arrangements in place, evidenced by written procedures, to ensure that these obligations are applied to all transactions with connected persons and transactions with connected persons entered into during the financial period complied with these obligations.

During the financial period, companies related to the Depositary were selected by the Investment Manager to execute investment trades and foreign exchange transactions and to accept deposits on behalf of the Funds.

8. Taxation

Under current law and practice the Company qualifies as an investment undertaking as defined in Section 739B of the Taxes Consolidation Act, 1997, as amended. On that basis, it is not generally chargeable to Irish tax on its income or gains. However, Irish tax may arise on the happening of a "chargeable event". A chargeable event includes any distribution payments to shareholders or any encashment, redemption, cancellation or transfer of shares.

No Irish tax will arise on the Company in respect of chargeable events in respect of:

(a) a shareholder who is neither Irish resident nor ordinarily resident in Ireland for tax purposes, at the time of the chargeable event, provided appropriate valid declarations in accordance with the provisions of the Taxes Consolidation Act, 1997, as amended, are held by the Company; and

(b) certain exempted Irish tax resident shareholders who have provided the Company with the necessary signed statutory declarations.

Dividends, interest and capital gains (if any) received on investments made by the Company may be subject to withholding taxes imposed by the country from which the investment income/gains are received and such taxes may not be recoverable by the Company or its shareholders.

9. Financial derivative instruments

Except where otherwise stated in the investment objectives and policies of a Fund in the Prospectus, the Funds may invest in FDI for investment purposes and for efficient portfolio management purposes or to protect against foreign exchange rate risks, subject to the conditions and within the limits laid down by the Central Bank.

Efficient portfolio management transactions relating to the assets of a Fund may be entered into with one of the following aims: hedging, reducing risks or costs, or increasing capital or income returns.

NOTES TO THE FINANCIAL STATEMENTS (continued)
9. Financial derivative instruments (continued)

Details of the FDI in which the Funds have invested are disclosed in the relevant Portfolio of Investments.

The Funds classify FDI as financial assets or financial liabilities at fair value through profit or loss. Gains and losses arising from changes in the fair value of the FDI are presented in the Statement of Comprehensive Income in the financial period in which they arise.

During the financial periods ended 30 June 2018 and 30 June 2017 the Funds did not engage in the efficient portfolio management techniques of stocklending, repurchase agreements and reverse repurchase agreements.

10. Soft commission arrangements

Los Angeles Capital Management and Equity Research Inc. (“Los Angeles Capital”), a sub-investment manager of the World Equity Fund, entered into soft commission arrangements with third parties under which the third party provides research and research products which are used to assist in the provision of investment services to the Fund. Los Angeles Capital’s soft commission arrangements comply with the Chartered Financial Analyst Institute Soft Dollar Standards and satisfy the safe harbour provisions under Section 28(e) of the Securities and Exchange Act of 1934. Other than the above, neither the Investment Manager nor any of its sub-investment managers entered into any other soft commission arrangements during the financial period.

11. Exchange rates

Euro exchange rates used at 30 June 2018, 31 December 2017 and 30 June 2017:

Turkish Lira	TRY	5.3488	4.5488	4.0212
US Dollar	USD	1.1676	1.2000	1.1423

12. Segregated liability

The Company is incorporated as an umbrella fund with segregated liability between Funds and as such, as a matter of Irish law, the assets of the Company will not be exposed to the liabilities of the Company’s other Funds. Each Fund will be responsible for paying its fees and expenses regardless of its profitability. Notwithstanding the foregoing, there can be no assurance that, should an action be brought against the Company in the courts of another jurisdiction, the segregated nature of the Funds would necessarily be upheld.

NOTES TO THE FINANCIAL STATEMENTS (continued)

13. Commitments and contingent liabilities

There were no significant commitments or contingent liabilities at the financial period end or at the previous financial year end.

14. Significant events during the financial period

On 9 April 2018, Mr. Neal Berkowitz resigned as a Director of the Company.

With effect from 16 June 2018, the distribution agreement with Popular Banca Privada was terminated.

Other than the above, there were no significant events affecting the Company during the financial period.

15. Subsequent events

There were no significant subsequent events affecting the Company since the financial period end and up to the date of approval of these financial statements, 16 August 2018.

16. Approval of financial statements

The financial statements were approved by the Directors on 16 August 2018.

**STATEMENT OF CHANGES IN COMPOSITION OF PORTFOLIO
FOR THE FINANCIAL PERIOD ENDED 30 JUNE 2018**

In accordance with the Central Bank UCITS Regulations, a statement of the largest changes in the composition of the Portfolio of Investments during the financial period is provided to ensure that the shareholders can identify changes in the investments held by the Funds. These statements present the aggregate purchases and sales of an investment, exceeding 1% of the total value of purchases and sales for the financial period, or the top 20 purchases or sales if those purchases or sales in excess of 1% of the total value of purchase or sales amounts to less than 20 transactions.
