BACKGROUND TO THE COMPANY

The following information is derived from, and should be read in conjunction with, the full text and definitions section of the Company's prospectus (the "Prospectus").

Structure

CBIS Global Funds plc (the "Company") is an umbrella fund with segregated liability between sub-funds established as an investment company with variable capital incorporated with limited liability in Ireland on 18 April 2008. The Company is regulated by the Central Bank of Ireland (the "Central Bank") pursuant to the European Communities (Undertakings for Collective Investment in Transferable Securities) Regulations, 2011 (as amended) (the "UCITS Regulations") and the Central Bank (Supervision and Enforcement) Act 2013 (Section 48(1)) (Undertakings for Collective Investment in Transferable Securities) Regulations 2015 (the "Central Bank UCITS Regulations") and was authorised by the Central Bank on 16 June 2008. The Company currently has the following sub-funds (each a "Fund" and collectively the "Funds") as follows:

Fund Name	Date of approval by Central Bank	Launch Date
European Short Term Government Bond Fund	17 April 2009	5 May 2009
Global Equity Fund*	16 June 2008	5 May 2009
European Equity Fund	16 June 2008	9 July 2010
World Bond Fund	16 June 2008	9 July 2010
World Equity Fund*	19 June 2014	20 February 2015
U.S. Core Equity Index Fund	19 June 2014	Not yet launched

*Effective 20 February 2015, the Global Equity Fund merged into the World Equity Fund.

A Fund may consist of one or more classes of shares. A separate pool of assets will not be maintained for each class within a Fund. Further classes of shares may be issued on advance notification to, and in accordance with the requirements of, the Central Bank.

Investment objectives

Each Fund aims to achieve its investment objective, as set out below, while spreading investment risks through investment in transferable securities and liquid financial assets in accordance with the UCITS Regulations.

The allocation of the assets of a Fund between the sub-investment managers of that Fund is at the sole discretion of Christian Brothers Investment Services, Inc. (the "Investment Manager") and the Investment Manager may from time to time, at its discretion, determine not to allocate any of the assets of the Fund to a sub-investment manager.

In pursuing its investment objectives, each Fund shall adhere to the principles of ethical and socially responsible investing, as described in the Prospectus.

European Short Term Government Bond Fund

The investment objective of the European Short Term Government Bond Fund is to provide current income, consistent with preservation of capital through investment primarily in a diversified portfolio of high quality, Euro-denominated deposits and short term fixed-income securities.

The sub-investment managers of the Fund are ARCA SGR S.p.A. and Degroof Petercam Asset Management SA. Since the launch of the Fund the Investment Manager has allocated investment management of all of the assets of the Fund to ARCA SGR S.p.A. The functional currency of the Fund is Euro.

BACKGROUND TO THE COMPANY (continued)

Investment objectives (continued)

Global Equity Fund (merged into World Equity Fund effective 20 February 2015)

The investment objective of the Global Equity Fund is to seek to achieve capital appreciation by investing in equity securities of medium to large capitalisation issuers on a worldwide basis. Generally investments will be in companies with a market capitalisation of greater than EUR 0.35 billion and the Fund will be invested primarily in major developed markets. Not more than 30% of the Fund's net asset value shall be invested in emerging market countries and no more than 3% of the Fund's net asset value shall be invested in Russia.

The sub-investment manager of the Fund is Schroder Investment Management Limited. The functional currency of the Fund is Euro.

European Equity Fund

The investment objective of the European Equity Fund is to seek to achieve capital appreciation through investment generally in the equity securities of European issuers with a market capitalisation greater than EUR 65 million. The investments of the Fund will be diversified with strict controls on the level of investment in any particular industry to maximise the impact of individual stock selection.

The sub-investment managers of the Fund are AXA Rosenberg Investment Management Limited and Degroof Petercam Asset Management SA. Since the launch of the Fund the Investment Manager has allocated investment management of all of the assets of the Fund to Degroof Petercam Asset Management SA. The functional currency of the Fund is Euro.

World Bond Fund

The investment objective of the World Bond Fund is to seek to achieve sustainable income and modest capital appreciation through investment primarily in investment grade, debt securities which may be sovereign, supranational, corporate, mortgage or securitised debt securities.

The sub-investment managers of the Fund are Rogge Global Partners plc, Schroder Investment Management Limited, Principal Global Investors, LLC, ARCA SGR S.p.A. and Degroof Petercam Asset Management SA. Since the launch of the Fund the Investment Manager has allocated investment management of all of the assets of the Fund to Schroder Investment Management Limited. Schroder Investment Management Limited has delegated this function to Schroder Investment Management North America Inc. The functional currency of the Fund is Euro.

World Equity Fund (launched 20 February 2015)

The investment objective of the World Equity Fund is to seek to achieve capital appreciation and outperform its primary benchmark index, the MSCI All Country World Index, by combining a number of different yet complementary investment approaches employed by the sub-investment managers to invest in equity securities of medium to large capitalisation issuers on a worldwide basis while minimising downside risk by focusing on companies that exhibit a high internal rate of return and avoiding speculative investment. Generally, investments will be in companies with a market capitalisation of greater than EUR 0.35 billion and the Fund will be invested primarily in major developed markets.

The sub-investment managers of the Fund are Scott Investment Partners LLP, RhumbLine Advisers and Los Angeles Capital Management and Equity Research Inc. Since the launch of the Fund the Investment Manager has allocated investment management of all of the assets of the Fund equally between Scott Investment Partners LLP and Los Angeles Capital Management and Equity Research Inc. The functional currency of the Fund is Euro.

U.S. Core Equity Index Fund (not yet launched)

The investment objective of the U.S. Core Equity Index Fund is to seek to replicate the price and yield performance of the S&P 500[®] Index, an index which emphasises large-capitalisation companies.

The sub-investment manager of the Fund is RhumbLine Advisers. The functional currency of the Fund is US Dollar.

INVESTMENT MANAGER'S REPORT

European Short Term Government Bond Fund

12 Month Review

The European Short Term Government Bond Fund (the “Fund”) slightly underperformed the Barclay’s Euro Government Bond 1-3 year Term Index (the “Benchmark”) on a net of fees basis during the trailing twelve months, returning 0.64% versus the Benchmark return of 1.01%. While the sub-investment manager keeps a very active view on duration and country exposure, the fair value of core countries shows that most markets are expensive. However, given the European Central Bank quantitative easing program, the sub-investment manager has been cautious and maintained a neutral stance in the portfolio.

In particular, given the low level of interest rates in Europe, the sub-investment manager maintained cautious portfolio positioning. In terms of country exposures, the Fund’s small overweight to Italian debt (which was 50% of the Benchmark by weight) in the two and three year buckets was a marginally positive contributor to relative return, while its small exposure to German debt detracted slightly.

*References to benchmarks are for illustrative purposes only. There is no guarantee that the Fund will outperform this benchmark.

**Christian Brothers Investment Services, Inc.
2016**

INVESTMENT MANAGER'S REPORT (continued)

World Bond Fund

12 Month Review

The World Bond Fund (the "Fund") slightly underperformed the Barclays Capital Global Aggregate Index (Euro) (the "Benchmark") on a net of fees basis during the last 12 months, returning 6.96% versus the Benchmark return of 7.88%. The Fund was positioned with a defensive U.S. interest posture throughout the year based on the sub-investment manager's view that interest rates would normalize ahead of market expectations and that the pace of rate hikes would be faster than the market anticipated. The U.S., U.K. and Europe saw improvements in employment and consumer confidence remained on an upward trajectory. However, the inflation environment remained relatively stagnant and the expected uptrend in rates did not occur.

Given the sub-investment manager's outlook for higher interest rates and inflation in both the U.S. and U.K., shorter duration positions in both countries underperformed over the year. Nevertheless, in an environment where the fixed income market continues to price in a continuation of accommodative monetary policy, an overweight to credit was expected to outperform. As a result, the portfolio was overweight U.S. credit, particularly the longer end of the investment grade credit curve. The sub-investment manager also took the view within credit markets that it wanted to avoid areas of the credit curve where the more speculative money was allocated, i.e. the front end. Furthermore, the longer end of the curve is natural home for US pension funds and the sub-investment manager believed there was structural support at this point on the curve. As the low-yield environment continued, corporates took advantage of low interest costs to secure cheap funding for even longer periods. As such, USD credit issuance moved progressively further along the curve, leading to an increase in supply at longer-dated maturities, which caused a steepening of the USD credit curve. This led to underperformance of the credit component of the portfolio.

*References to benchmarks are for illustrative purposes only. There is no guarantee that the Fund will outperform this benchmark.

**Christian Brothers Investment Services, Inc.
2016**

INVESTMENT MANAGER'S REPORT (continued)

European Equity Fund

12 Month Review

For the full calendar year 2015, the European Equity Fund (the “Fund”) returned 10.44% on a net of fees basis versus its MSCI benchmark index (the “Benchmark”) return of 8.78%. Before fees and expenses, the stock selection excess return was more than 300 basis points. Consistent with the structure of the Fund, there was very little positive or negative performance generated by sector differences between the Fund and the Benchmark. A small underweight in the worst performing energy sector was helpful by about 10 basis points, but the benefit was offset by the slight drag on performance resulting from holding transactional cash throughout the year. The strong stock selection results in healthcare during the fourth quarter propelled that sector within the Fund to the top perch in terms of contribution to excess return over the 12 month period. When looking at the full year, the Fund's underweight in pharmaceutical companies would have been a significant detractor from relative performance if not for the extremely successful stock picking results within the grouping. To illustrate, the average return for pharmaceutical companies within the Benchmark was around 14% for 2015, but the Fund's pharmaceuticals holdings gained more than 30%. In addition the underweight in Pharmaceuticals was partially offset with a 3% overweight in life sciences companies – a segment of the market that gained more than 40% for the year.

The financial sector, especially banks, was another major source of stock selection strength in 2015. In the Benchmark the average bank return was negative for the year; but the Fund's bank holdings earned on average more than 6%. Other than healthcare and financials, the Fund's significant net positive results were spread more evenly within the materials and industrials sectors. There were no significant detractors from relative performance among the remaining sectors when measured over the 12 month period—only relatively minor differences from the returns available within the index universe of investments.

*References to benchmarks are for illustrative purposes only. There is no guarantee that the Fund will outperform this benchmark.

**Christian Brothers Investment Services, Inc.
2016**

INVESTMENT MANAGER'S REPORT (continued)

World Equity Fund*

The World Equity Fund's (the "Fund") performance tracked quite closely to the MSCI All Country World index (the "Benchmark") with a return of -1.29% versus the Benchmark return of -0.87% over the same period. The investment environment was difficult and quite volatile through most of 2015, as evidenced by the overall index returns of -3.11% in the second quarter, -9.49% in the third quarter, and a rebound of +8.05% during the final three months of the year. Even within the broad market there was a wide variation of returns during the year among the different economic sectors. For example, positive returns generally near or above 5% were available on average in the information technology, health care, and the consumer related sectors; but at the same time returns in the energy and materials sectors averaged -19% and -17% respectively over the same time period.

Relative to the Benchmark, the Fund is invested across a broad number of countries in percentage allocations that are quite similar – for example 53% of the Fund assets were invested in the United States, almost identical to the 53.1% figure for the Benchmark at year end. The sector allocations show some more significant variations, as the Fund's 13.4% weighting in Financials is more than 8.0% below the weight of Financials in the Benchmark. That underweight and the much smaller underweights in telecommunications services and utilities were offset by a 3.1% overweight in health care and smaller underweights dispersed throughout the remaining sectors. Other than the relatively small negative contribution to excess return emanating from the overweight in energy, the asset allocation effects among the sectors was virtually neutral in terms of relative performance. Rather the differences realized in returns between the Fund and the Benchmark came primarily from specific stock selection results within specific sectors of the market. For example, the Fund benefitted from positive stock selection results in health care and materials – but there were some negative specific stock results in telecommunications and other consumer related sectors.

*The World Equity Fund inception date is 20 February 2015.

**References to benchmarks are for illustrative purposes only. There is no guarantee that the Fund will outperform this benchmark.

**Christian Brothers Investment Services, Inc.
2016**

DIRECTORS' REPORT

The Directors of CBIS Global Funds plc (the “Company”) submit their report together with the audited financial statements for the year ended 31 December 2015.

The Directors have adopted all corporate governance practices and procedures in the voluntary Corporate Governance Code for Collective Investment Schemes and Management Companies as published by Irish Funds.

Directors' Responsibilities Statement

The Directors are responsible for preparing the Annual Report and the financial statements in accordance with applicable Irish law and FRS 102 “The Financial Reporting Standard applicable in the United Kingdom and the Republic of Ireland” (“FRS 102”).

Irish company law requires the Directors to prepare financial statements for each financial year which give a true and fair view of the Company’s assets, liabilities and financial positions as at the end of the financial year and of the profit or loss of the Company for that year. In preparing these financial statements, the Directors are required to:

- select suitable accounting policies and then apply them consistently;
- make judgments and estimates that are reasonable and prudent;
- state whether the financial statements have been prepared in accordance with applicable accounting standards and identify the standards in question, subject to any material departure from the standards being disclosed and explained in the notes to the financial statements; and
- prepare the financial statements on a going concern basis unless it is inappropriate to presume that the Company will continue in business.

The Directors are responsible for keeping adequate accounting records that are sufficient to:

- correctly record and explain the transactions of the company;
- enable, at any time, the assets, liabilities, financial position and profit or loss of the Company to be determined with reasonable accuracy; and
- enable the Directors to ensure that the financial statements comply with the Companies Act 2014 and the UCITS Regulations and enable those financial statements to be audited.

Under the UCITS Regulations, the Directors are required to entrust the assets of the Company to a custodian for safe-keeping. In carrying out this duty, the Directors have entrusted custody of the Company’s assets to BNY Mellon Trust Company (Ireland) Limited (the “Custodian”).

The financial statements of the Company are published on the website of Christian Brothers Investment Services Inc. (<http://cbisonline.com/eu/>). The Directors are responsible for the maintenance and integrity of the corporate and financial information relating to the Company published on this website. Legislation in Ireland governing the preparation and dissemination of financial statements may differ from legislation in other jurisdictions.

Adequate accounting records

The measures taken by the Directors to secure compliance with the Company’s obligation to keep adequate accounting records are the use of appropriate systems and procedures and employment of competent and qualified service providers. The Directors have delegated the administration of the Company to BNY Mellon Fund Services (Ireland) Designated Activity Company (the “Administrator”) who maintains the accounting records at Guild House, Guild Street, IFSC, Dublin 1, Ireland.

Review of business and future developments

The Company is an open-ended investment company with variable capital which has been authorised by the Central Bank under the UCITS Regulations. There was no change in the nature of the Company’s business during the year.

DIRECTORS' REPORT (continued)

Risk management objectives and policies

The Company's investment activities expose it to the various types of risk, which are associated with the financial instruments and markets in which it invests.

Details of certain risks inherent in investing in the Company are disclosed in Note 4 to the financial statements and in the Prospectus.

Results and distributions

The results for the year ended 31 December 2015 are set out in the Statement of Comprehensive Income. It is not proposed to declare distributions in respect of any of the Funds.

Significant events during the year

Please refer to Note 15 for details of significant events during the year.

Subsequent events

Please refer to Note 16 for details of significant subsequent events affecting the Company since the year end.

Connected parties

In accordance with the requirements of Chapter 10 of the Central Bank UCITS Regulations, all transactions carried out with the Company by the Custodian and the delegate or sub-delegate of the Company or the Custodian, and any associated or group company of the Company, the Custodian or such delegate or sub-delegate ("connected parties") must be conducted at arm's length and in the best interests of shareholders. The Directors are satisfied that there are arrangements in place, evidenced by written procedures, to ensure that these obligations are applied to all transactions with connected parties and transactions with connected parties entered into during the year complied with these obligations.

During the year, companies related to the Custodian were selected by the Investment Manager to execute investment trades and foreign exchange transactions and to accept deposits on behalf of the Funds.

Directors

The names of the persons who were Directors at any time during the year ended 31 December 2015 are set out below. All Directors held office for the entire year unless indicated otherwise.

Eimear Cowhey
Denise Kinsella
Michael W. O'Hern, FSC
David L. Skelding

Directors' and secretary's interests

Other than those noted in Note 3 to the financial statements, the Directors and secretary and their families had no interests in the shares of the Company at 31 December 2015.

No Director had at any time during the year, a material interest in any contract of significance, subsisting during or at the year end, in relation to the business of the Company. Related party transactions are disclosed in Note 7 of the financial statements.

Independent auditors

The auditors, PricewaterhouseCoopers, are appointed in accordance with Section 383 of the Companies Act 2014.

On behalf of the Board

	
Director	Director
13 April 2016	13 April 2016

Report of the Custodian to the Shareholders

We have enquired into the conduct of CBIS Global Funds plc (the "Company") for the year- ended 31 December 2015, in our capacity as custodian to the Company.

This report including the opinion has been prepared for and solely for the shareholders in the Company, in accordance with Regulation 47 of the European Communities (Undertakings for Collective Investment in Transferable Securities) Regulations 2011 (S.I. No 352 of 2011) (the "Regulations"), and for no other purpose. We do not, in giving this opinion, accept or assume responsibility for any other purpose or to any other person to whom this report is shown.

Responsibilities of the Custodian

Our duties and responsibilities are outlined in Regulation 47 of the Regulations. One of those duties is to enquire into the conduct of the Company in each annual accounting period and report thereon to the shareholders.

Our report shall state whether, in our opinion, the Company has been managed in that period in accordance with the provisions of the Company's Memorandum and Articles of Association and the Regulations. It is the overall responsibility of the Company to comply with these provisions. If the Company has not been so managed, we as custodian must state in what respects it has not been so managed and the steps which we have taken in respect thereof.

Basis of Custodian Opinion

The custodian conducts such reviews as it, in its reasonable opinion, considers necessary in order to comply with its duties as outlined in Regulation 47 of the Regulations and to ensure that, in all material respects, the Company has been managed (i) in accordance with the limitations imposed on its investment and borrowing powers by the provisions of its constitutional documentation and the appropriate regulations and (ii) otherwise in accordance with the Company's constitutional documentation and the appropriate regulations.

Opinion

In our opinion, the Company has been managed during the year, in all material respects:

- (i) in accordance with the limitations imposed on the investment and borrowing powers of the Company by the Memorandum and Articles of Association and by the Regulations; and
- (ii) otherwise in accordance with the provisions of the Memorandum and Articles of Association and the Regulations.

BNY Mellon Trust Company (Ireland) Limited

Date: 13 April 2016

INDEPENDENT AUDITORS' REPORT TO THE SHAREHOLDERS OF CBIS GLOBAL FUNDS PLC

Report on the financial statements

Our opinion

In our opinion, CBIS Global Funds plc's financial statements (the "financial statements"):

- give a true and fair view of the company's and funds' assets, liabilities and financial position as at 31 December 2015 and of their results for the year then ended;
- have been properly prepared in accordance with Generally Accepted Accounting Practice in Ireland; and
- have been properly prepared in accordance with the requirements of the Companies Act 2014 and the European Communities (Undertakings for Collective Investment in Transferable Securities) Regulations 2011 (as amended).

What we have audited

The financial statements comprise:

- the statement of financial position as at 31 December 2015;
- the statement of comprehensive income for the year then ended;
- the statement of changes in net assets attributable to holders of redeemable participating shares for the year then ended;
- the portfolio of investments for each of the funds as at 31 December 2015; and
- the notes to the financial statements for the company and for each of its funds which include a summary of significant accounting policies and other explanatory information.

The financial reporting framework that has been applied in their preparation is Irish law and accounting standards issued by the Financial Reporting Council and promulgated by the Institute of Chartered Accountants in Ireland (Generally Accepted Accounting Practice in Ireland).

In applying the financial reporting framework, the directors have made a number of subjective judgements, for example in respect of significant accounting estimates. In making such estimates, they have made assumptions and considered future events.

Matters on which we are required to report by the Companies Act 2014

- We have obtained all the information and explanations which we consider necessary for the purposes of our audit.
- In our opinion the accounting records of the company were sufficient to permit the financial statements to be readily and properly audited.
- The financial statements are in agreement with the accounting records.
- In our opinion the information given in the Directors' Report is consistent with the financial statements.

Matter on which we are required to report by exception

Directors' remuneration and transactions

Under the Companies Act 2014 we are required to report to you if, in our opinion, the disclosures of directors' remuneration and transactions specified by sections 305 to 312 of that Act have not been made. We have no exceptions to report arising from this responsibility.

Responsibilities for the financial statements and the audit

Our responsibilities and those of the directors

As explained more fully in the Directors' Responsibilities Statement set out on page 10, the directors are responsible for the preparation of the financial statements and for being satisfied that they give a true and fair view.

**INDEPENDENT AUDITORS' REPORT TO THE SHAREHOLDERS OF CBIS GLOBAL FUNDS PLC
(continued)**

Responsibilities for the financial statements and the audit (continued)

Our responsibilities and those of the directors (continued)

Our responsibility is to audit and express an opinion on the financial statements in accordance with Irish law and International Standards on Auditing (UK and Ireland). Those standards require us to comply with the Auditing Practices Board's Ethical Standards for Auditors.

This report, including the opinions, has been prepared for and only for the company's members as a body in accordance with section 391 of the Companies Act 2014 and for no other purpose. We do not, in giving these opinions, accept or assume responsibility for any other purpose or to any other person to whom this report is shown or into whose hands it may come save where expressly agreed by our prior consent in writing.

What an audit of financial statements involves

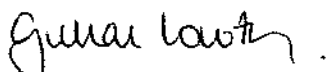

We conducted our audit in accordance with International Standards on Auditing (UK and Ireland). An audit involves obtaining evidence about the amounts and disclosures in the financial statements sufficient to give reasonable assurance that the financial statements are free from material misstatement, whether caused by fraud or error. This includes an assessment of:

- whether the accounting policies are appropriate to the company's circumstances and have been consistently applied and adequately disclosed;
- the reasonableness of significant accounting estimates made by the directors; and
- the overall presentation of the financial statements.

We primarily focus our work in these areas by assessing the directors' judgements against available evidence, forming our own judgements, and evaluating the disclosures in the financial statements.

We test and examine information, using sampling and other auditing techniques, to the extent we consider necessary to provide a reasonable basis for us to draw conclusions. We obtain audit evidence through testing the effectiveness of controls, substantive procedures or a combination of both.

In addition, we read all the financial and non-financial information in the Annual Report to identify material inconsistencies with the audited financial statements and to identify any information that is apparently materially incorrect based on, or materially inconsistent with, the knowledge acquired by us in the course of performing the audit. If we become aware of any apparent material misstatements or inconsistencies we consider the implications for our report.

The accompanying notes are an integral part of these financial statements.

NOTES TO THE FINANCIAL STATEMENTS**1. Accounting policies**

The principal accounting policies and estimation techniques applied in the preparation of these financial statements are set out below. These policies have been consistently applied to all the years presented, unless otherwise stated.

Basis of preparation

The financial statements of CBIS Global Funds plc (the “Company”) have been prepared in accordance with FRS 102 “The Financial Reporting Standard applicable in the United Kingdom and the Republic of Ireland” (“FRS 102”) and Irish statute comprising the Companies Act 2014 and European Communities (Undertakings for Collective Investment in Transferable Securities) Regulations, 2011 (as amended) (the “UCITS Regulations”).

The format and certain wordings of the financial statements have been adapted from those contained in Irish statute so that, in the opinion of the Directors, they more appropriately reflect the nature of the Company’s business as an investment fund.

The Company has availed of the exemption available to open-ended investment funds under Section 7 “Statement of Cash Flows” of FRS 102, not to prepare a cash flow statement on the basis that substantially all of the Company’s investments are highly liquid and carried at fair value, and the Company provides a statement of changes in net assets attributable to redeemable participating shareholders.

Transition to FRS 102

The Directors of the Company have adopted the accounting standards generally accepted in Ireland, including FRS 102 for its annual financial statements effective 1 January 2015. Accordingly, these are the Company’s first annual financial statements which have been prepared in accordance with FRS 102. Other than as listed below, the Company has consistently applied the same accounting policies throughout all periods presented, as if these policies had always been in effect.

The transition to FRS 102 had no material impact to the Statement of Financial Position, Statement of Comprehensive Income and the Statement of Changes in Net Assets Attributable to Holders of Redeemable Participating Shares from those used in the Company’s financial statements for the year ended 31 December 2014 prepared under the previous financial reporting framework.

Fair value measurement

Under the previous accounting standards issued by the Financial Reporting Council and promulgated by the Institute of Chartered Accountants in Ireland (Generally Accepted Accounting Practice in Ireland) (“Irish GAAP”), the quoted market price used for financial assets was the current bid price and the appropriate quoted market price for financial liabilities was the current ask price. Under FRS 102, in accounting for all of its financial instruments, the Company is required to apply one of the following:

- (a) the full requirements of Sections 11 “Basic Financial Instruments” and Section 12 “Other Financial Instruments Issues” of FRS 102;
- (b) the recognition and measurement provisions of International Accounting Standards 39 “Financial Instruments: Recognition and Measurement” (“IAS 39”) as adopted for use in the European Union and the disclosure requirements of Sections 11 and 12 of FRS 102; or
- (c) the recognition and measurement provisions of International Financial Reporting Standards 9 “Financial Instruments” and the disclosure requirements of Sections 11 and 12 of FRS 102.

The Company has elected to apply the recognition and measurement provisions of IAS 39 and the disclosure requirements of Sections 11 and 12 of FRS 102. Under IAS 39, financial assets and liabilities are valued at current mid-market price, consistent with the prospectus.

Historical cost convention

The financial statements have been prepared under the historical cost convention as modified by the revaluation of financial assets and financial liabilities (including derivative financial instruments) at fair value through profit or loss.

NOTES TO THE FINANCIAL STATEMENTS (continued)**1. Accounting policies (continued)****Functional and presentation currency**

The functional currency of the Company is Euro (“EUR”) and the functional currencies of each of the sub-funds (each a “Fund” and collectively the “Funds”) are as follows:

European Short Term Government Bond Fund	Euro
European Equity Fund	Euro
Global Equity Fund*	Euro
World Bond Fund	Euro
World Equity Fund (launched 20 February 2015)*	Euro
U.S. Core Equity Index Fund (not yet launched)	US Dollar

** Effective 20 February 2015, the Global Equity Fund merged into the World Equity Fund.*

Items included in the Company’s financial statements are measured and presented using the currency of the primary economic environment in which each Fund operates (the “functional currency”). In accordance with Section 30 “Foreign Currency Translations” of FRS 102 the functional currency of the Funds has been evaluated by the Directors.

Foreign exchange transactions and balances

Foreign currency transactions are translated into the functional currency using the exchange rates prevailing at the dates of the transactions. Foreign exchange gains and losses resulting from the settlement of such transactions and from the translation at year end exchange rates of assets and liabilities denominated in foreign currencies are recognised in the Statement of Comprehensive Income within net gains/(losses) on financial assets and financial liabilities at fair value through profit or loss.

Proceeds from subscriptions and amounts paid on redemptions of redeemable participating shares are translated at actual rates.

Critical accounting estimates and assumptions

Christian Brothers Investment Services, Inc. (the “Investment Manager”) makes estimates and assumptions concerning the future. The resulting accounting estimates will, by definition, seldom equal the related actual results. The estimates and assumptions that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year are outlined in the following pages.

Financial assets and financial liabilities at fair value through profit or loss*Classification*

The Company classifies its investments in debt and equity securities, and related derivatives, as financial assets or financial liabilities at fair value through profit or loss. These financial assets and financial liabilities are designated by the Investment Manager at fair value through profit or loss at inception.

Financial assets and financial liabilities designated at fair value through profit or loss at inception are those that are managed and their performance evaluated on a fair value basis in accordance with the Company’s documented investment strategy. The Company’s policy is for the Investment Manager to evaluate the information about these financial assets and financial liabilities on a fair value basis together with other related financial information.

Recognition/derecognition

Regular-way purchases and sales of investments are recognised on the trade date, which is the date on which the Company commits to purchase or sell the investment. Investments are derecognised when the rights to receive cash flows from the investments have expired or the Company has transferred substantially all risks and rewards of ownership.

NOTES TO THE FINANCIAL STATEMENTS (continued)

1. Accounting policies (continued)

Financial assets and financial liabilities at fair value through profit or loss (continued)

Measurement

Financial assets and financial liabilities at fair value through profit or loss are initially recognised at fair value. Transaction costs are expensed in the Statement of Comprehensive Income. Subsequent to initial recognition, all financial assets and financial liabilities at fair value through profit or loss are measured at fair value.

Gains and losses arising from changes in the fair value of the financial assets or financial liabilities at fair value through profit or loss category are presented in the Statement of Comprehensive Income in the year in which they arise. Interest earned on investments since the last coupon date is included in financial assets at fair value through profit or loss.

Fair value estimation

The fair value of financial instruments traded in active markets (such as publicly traded derivatives and trading securities) is based on quoted market prices at the Statement of Financial Position date. The quoted market price used for financial assets held by the Company is the current mid price.

The fair value of financial instruments that are not traded in an active market (for example, over-the-counter derivatives) is determined by using valuation techniques. The Company uses a variety of methods and makes assumptions that are based on market conditions existing at each Statement of Financial Position date. Valuation techniques used include the use of comparable recent arm's length transactions, discounted cash flow analysis, option pricing models and other valuation techniques commonly used by market participants. There were no such investments held at 31 December 2015 or 31 December 2014.

Fair value of derivative financial instruments

Futures Contracts

Initial margin deposits are made upon entering into futures contracts and are generally made in cash or cash equivalents. Futures contracts are fair valued based upon their quoted daily settlement prices. Changes in the value of open futures contracts are recognised as unrealised gains or losses on futures contracts until the contracts are terminated, at which time the realised gains and losses are recognised.

Unrealised gains or losses on open futures contracts at the year end are shown in the Portfolio of Investments. The initial margin receivable or payable at the reporting date is reported as an asset or liability, as applicable in the Statement of Financial Position. Realised and unrealised gains or losses on futures contracts are included within the net gains/(losses) on financial assets and financial liabilities at fair value through profit or loss in the Statement of Comprehensive Income.

Foreign exchange contracts

Foreign exchange contracts are used primarily to protect the Company from adverse currency and interest rate movements. Contracts outstanding at the year end are valued at their market value which is the applicable forward foreign exchange rate. Unrealised gains or losses on foreign exchange contracts held at the year end are shown in the Portfolio of Investments. Realised and unrealised gains or losses on foreign exchange contracts are included within the net gains/(losses) on financial assets and financial liabilities at fair value through profit or loss in the Statement of Comprehensive Income.

All of the Company's financial assets and financial liabilities are held for the purpose of being traded or are expected to be realised within twelve months of the Statement of Financial Position date.

Interest income

Interest income on interest bearing financial instruments is shown as a component of net gains/(losses) on financial assets and financial liabilities at fair value through profit or loss in the Statement of Comprehensive Income. Interest earned on investments since the last coupon date is included in financial assets at fair value through profit or loss. All interest income is accounted for on an effective interest basis.

NOTES TO THE FINANCIAL STATEMENTS (continued)**1. Accounting policies (continued)****Dividend income**

Dividend income from financial assets at fair value through profit or loss is recognised in the Statement of Comprehensive Income within 'dividend income' when the right of the Funds to receive payments is established. Dividend income is shown gross of any non-recoverable withholding taxes, which is disclosed in the Statement of Comprehensive Income and net of any tax credits.

Expenses

All expenses, including investment management fees, are recognised in the Statement of Comprehensive Income on an accruals basis.

Distributions

Each of the Funds will accumulate its income and capital gains. It is not proposed to declare distributions in respect of any of the Funds.

Cash and other liquid assets

Cash and other liquid assets will be valued at their face value with interest accrued, where applicable, at the close of business on a business day (at 4.00 pm. Eastern Standard Time).

Receivables

Receivables are non-derivative financial assets with fixed or determinable payments that are not quoted in an active market. Receivables are recognised initially at fair value plus transaction costs that are directly attributable to their acquisition origination. They are subsequently measured at amortised cost using the effective interest method, less provision for impairment.

Payables

Payables are recognised initially at fair value and subsequently stated at amortised cost using the effective interest method.

Offsetting financial instruments

Financial assets and liabilities are offset and the net amount reported in the Statement of Financial Position when there is a legally enforceable right to offset the recognised amounts and there is an intention to settle on a net basis or realise the asset and settle the liability simultaneously.

Redeemable participating shares

The Company issues redeemable participating shares, which are redeemable at the holder's option and are classified as financial liabilities. Redeemable participating shares can be put back to the Company at any time for cash equal to a proportionate share of the Company's net asset value. The redeemable participating share is carried at the redemption amount that is payable at the Statement of Financial Position date if the holder exercises the right to put the share back to the Company.

Redeemable participating shares are issued and redeemed at the holder's option at prices based on each Fund's net asset value per share at the time of issue or redemption. Each Fund's net asset value per share is calculated by dividing the net assets attributable to the holders of redeemable participating shares by the total number of outstanding redeemable participating shares. In accordance with the provisions of the Company's memorandum and articles of association, investment positions are valued based on the last traded price for the purpose of determining the net asset value per share for subscriptions and redemptions.

Transaction costs

Transaction costs are defined as the incremental costs that are directly attributable to the acquisition, issue or disposal of a financial asset or financial liability. An incremental cost is one that would not have been incurred if the entity had not acquired, issued or disposed of the financial instrument. When a financial asset or financial liability is recognised initially, an entity shall measure it at its fair value through profit or loss plus transaction costs that are directly attributable to the acquisition or issue of the financial asset or financial liability. Transaction costs on the purchase and sale of bonds and foreign exchange contracts are included in the purchase and sale price of the investment. They cannot be practically or reliably gathered as they are embedded in the cost of the investment and cannot be separately verified or disclosed.

NOTES TO THE FINANCIAL STATEMENTS (continued)**1. Accounting policies (continued)****Transaction costs (continued)**

Transaction costs on purchases and sales of equities and future contracts are included in “Net gains/(losses) on financial assets and financial liabilities at fair value through profit or loss” in the Statement of Comprehensive Income for each Fund. These costs are separately identifiable transaction costs and the total costs incurred by each Fund during the year are disclosed in Note 5 to the financial statements.

2. Cash and bank balances

Cash held by the Company is deposited with BNY Mellon SA/NV (the “Global Sub-Custodian”). The ultimate parent company of the Global Sub-Custodian is the Bank of New York Mellon Corporation, which is a large American financial institution listed on the New York Stock Exchange whose long-term senior debt rating by Standard and Poor’s was A at the end of the year (2014: AA).

The margin on derivative contracts is held with UBS Limited whose short term security rating by Standard & Poor’s was A-1 at the end of the year (2014: A-1).

3. Share capital***Authorised***

The Directors are empowered to issue up to five hundred billion shares of no par value in the Company at the net asset value per share on such terms that they may think fit.

Subscriber shares

Two subscriber shares are in issue. The Investment Manager and Mr. David Skelding each hold one subscriber share. The subscriber shares do not form part of the net asset value of the Company and are thus disclosed in these financial statements by way of this note only.

Redeemable participating shares

The issued redeemable participating share capital is at all times equal to the net asset value of the Company. Redeemable participating shares are redeemable at the shareholder’s option and are classified as financial liabilities.

The Company’s capital is represented by these redeemable participating shares with no par value and each carrying one vote. They are entitled to dividends and to payment of a proportionate share based on the Company’s net asset value per share upon redemption. The minimum initial investment per shareholder in a Fund shall be EUR 50,000 in the case of classes whose functional currency is Euro and USD 65,000 in the case of classes whose functional currency is US Dollar and the minimum subsequent investment shall be EUR 5,000 in the case of classes whose functional currency is Euro and USD 6,500 in the case of classes whose functional currency is US Dollar. The relevant movements are shown in the statement of changes in net assets attributable to holders of redeemable participating shares.

4. Financial risk management

The Company is exposed to various risks arising from the financial instruments it holds. The Investment Manager’s overall risk management programme focuses on the unpredictability of financial markets and seeks to minimise potential adverse effects on the Company’s financial performance. The Investment Manager does not oversee individual security portfolios directly, but rather after review of prospective managers for each Fund mandate, selects sub-investment managers which have in place risk management programmes that seek to limit the potential adverse effects of these risks on the Funds’ financial performance. The selection and monitoring process for sub-investment managers involves a ‘request for proposal’ review, as well as ongoing monthly and quarterly reporting, conference calls and face-to-face meetings with each sub-investment manager once selected.

Global exposure

UCITS funds are required to monitor exposures on a daily basis by utilising either the commitment approach or the value at risk (“VaR”) approach when financial derivative instruments (“FDI”) are held by the Funds. The sub-investment managers utilise the commitment approach in monitoring the exposures of the Funds when FDI are held as they are satisfied that the market risk can be adequately monitored through this method.

NOTES TO THE FINANCIAL STATEMENTS (continued)
4. Financial risk management (continued)
Global exposure (continued)

Although permitted to employ FDI, the sub-investment managers of the European Equity Fund, the Global Equity Fund, the World Bond Fund, the World Equity Fund and the U.S. Core Equity Index Fund do not propose to employ FDI for either efficient portfolio management purposes or for investment purposes. Each sub-investment manager will submit a risk management process to the Central Bank in accordance with Guidance Note 3/03 prior to the engaging in FDI transactions in respect of the Fund it manages.

The Funds will not invest in FDI until such time as a risk management process has been submitted to and cleared by the Central Bank by the relevant sub-investment manager. As at the date of the Prospectus, one of the sub-investment managers of the European Short Term Government Bond Fund, ARCA SGR S.p.A., has submitted a risk management process to the Central Bank in accordance with Guidance Note 3/03.

Each Fund's activities expose it to a variety of financial risks: market risk (including market price risk, interest rate risk and currency risk), credit risk and liquidity risk. Each type of risk is discussed in turn and quantitative analyses are provided where relevant.

Market risk
Market price risk

Market price risk is the risk that the fair value of a financial instrument will fluctuate because of changes in market prices (other than those arising from interest rate risk and currency risk), whether those changes are caused by factors specific to individual financial instruments or its issuer, or other factors affecting similar financial instruments traded in the market. The Company seeks to mitigate market price risk through a variety of techniques including diversification of holdings and investment limitation guidelines agreed with sub-investment managers.

The overall market exposures at 31 December 2015 and 31 December 2014 were as follows:

The Investment Manager monitors the performance of the Funds on both an absolute and relative to benchmark basis, in order to ascertain market price risk. In addition, for equity portfolios, the Investment Manager utilises the “Factset” system to review performance attribution relative to market, sector and individual issue return. Each sub-investment manager has internal systems to monitor market risk in relation to such considerations as concentration of their portfolio and individual position size, risk exposure of total portfolio versus benchmark for a number of macro-economic factors and unexpected deviation in tracking error versus benchmark of short term results. Sub-investment managers may vary in the degree of emphasis upon quantitative techniques, as compared to more fundamental processes.

It is expected that more quantitatively oriented firms will make greater use of quantitative risk tools to assess market risk.

4. Financial risk management (continued)
Market risk (continued)
Market price risk (continued)

The following table demonstrates by way of example the likely increase in net asset value as a result of a 5% upwards movement in a Fund's related market index (a 5% decrease would have similar negative results). For the European Equity Fund, the Global Equity Fund and the World Equity Fund, should market value have increased or decreased by 5% at the year end with all other variables remaining constant, the increase or decrease in net assets attributable to holders of redeemable participating shares for the year is shown.

Fund	Benchmark	31 December 2015		31 December 2014	
		Volatility	Increase EUR	Volatility	Increase EUR
European Equity Fund	MSCI Europe Index	5.00%	5,198,588	5.00%	2,782,243
Global Equity Fund*	MSCI World Index	-	-	5.00%	3,902,796
World Equity Fund*	MSCI All Country World Index	5.00%	6,088,330	-	-

*The World Equity Fund launched on 20 February 2015. Effective 20 February 2015, the Global Equity Fund merged into the World Equity Fund.

The tables above do not include information in respect of the European Short Term Government Bond Fund and the World Bond Fund as their main exposure is to interest rate risk as detailed below. It should be noted that future market conditions could vary significantly and the table above is meant for illustrative purposes only.

Interest rate risk

Interest rate risk is comprised of fair value interest rate risk and cash flow interest rate risk. Fair value interest rate risk is defined as the risk that the fair value of a financial instrument will fluctuate because of changes in market interest rates. This risk arises in respect of financial instruments whose fair value is affected by changes in interest rates. Cash flow interest rate risk is the yield risk arising from changes in interest rates i.e. change in interest rates would have a direct impact on the yield generated by a Fund over the year.

A bond's sensitivity to interest rates can be expressed in terms of effective duration, which gives the estimated percentage change (excluding the minus sign) in portfolio value, associated with a 1% increase in interest rates.

The table below provides effective duration numbers as at 31 December 2015 and at 31 December 2014 for each of the Funds that bear interest rate risk. Also shown in the table is the estimated impact on the portfolio of a 1 basis point (0.01 of 1 per cent) increase in interest rates. The sensitivity analysis is based on a small parallel shift of the yield curve (interest rates of all maturities moving in unison). A decline in interest rates would be expected to have an equal and opposite impact on the numbers shown in the table below, on the basis that all other variables remain constant.

	Portfolio Value EUR	Effective Duration	Return expected if interest rates rise by 1 Basis Point	
			%	EUR
31 December 2015				
European Short Term Government Bond Fund	62,929,665	1.6	(0.016)	(10,069)
World Bond Fund	56,810,871	6.3	(0.063)	(35,791)
31 December 2014

World Bond Fund	36,918,189	6.1	(0.061)	(22,520)

NOTES TO THE FINANCIAL STATEMENTS (continued)
4. Financial risk management (continued)
Market risk (continued)
Interest rate risk (continued)

This is a simplistic approximation of an important factor, with changes in steepness and twists in the yield curve also likely, which will have additional impacts on asset prices. Furthermore, this analysis is intended only to be used to estimate the impact of small movements in bond yields. This sensitivity analysis is hypothetical and not intended to be predictive.

The following tables detail the Funds' exposure to interest rate risk at 31 December 2015 and 31 December 2014. It includes the Funds' assets and liabilities at fair values measured by the carrying value of the assets and liabilities and categorised by the earlier of contractual re-pricing or maturity date.

Currency risk

Currency risk is the risk that the fair value of a financial instrument will fluctuate because of changes in foreign exchange rates. The risk arises on financial instruments that are denominated in a currency other than the functional currency in which they are measured. The sub-investment managers monitor the currency exposure each dealing day in accordance with the Prospectus.

Currency risk does not arise from financial instruments that are non-monetary or from financial instruments denominated in the functional currency. However the tables on the next page set out the Company's exposure to non-monetary and monetary foreign currency risk.

* Sensitivity movement is calculated on monetary amounts only.

There is no such exposure for the European Short Term Government Bond Fund at 31 December 2015 or 31 December 2014 as all assets and liabilities were held in the functional currency of the Fund.

NOTES TO THE FINANCIAL STATEMENTS (continued)
4. Financial risk management (continued)
Credit risk

Credit risk is the risk that one party to a financial instrument will cause a financial loss for the other party by failing to discharge an obligation. This includes counterparty risk and issuer risk. Financial assets, which potentially expose the Company to credit risk, consist principally of interest bearing securities such as bonds, derivative instruments and investments in cash balances and deposits with and receivable from brokers. The extent of the Company's exposure to credit risk in respect of these financial assets approximates their carrying value as recorded in the Company's Statement of Financial Position.

The Investment Manager reviews the periodic holdings reports of the sub-investment managers to ensure that the Prospectus guidelines of the Funds are met in regard to overall portfolio credit quality, as well as reviewing changes in credit exposure that occur through portfolio trades.

The sub-investment managers manage issuer risk through building diversified portfolios, reflecting reasonable levels of individual issuer exposure depending on type of issuer (i.e., sovereign, corporate, etc.) and in reference to Fund benchmarks, as well as in accordance with the UCITS Regulations and the investment objectives of the Funds. Additionally, if required, the sub-investment managers will limit ownership of debt instruments to those instruments carrying a credit rating equal to or in excess of that provided for in the individual investment objectives of the Funds.

Substantially all of the assets of the Company are held by BNY Mellon Trust Company (Ireland) Limited (the "Custodian") as custodian of the Company. Bankruptcy or insolvency of the Custodian may cause the Company's rights with respect to securities and other positions held by the Custodian to be delayed or limited.

The Company's securities are segregated from the assets of either the Custodian or its agents. Thus in the event of the insolvency or bankruptcy of the Custodian, the Company's securities are segregated from those of the Custodian or its agents. The Company will, however, be exposed to the credit risk of the Custodian, or any depository used by the Custodian, in relation to the Company's cash held by the Global Sub-Custodian. In the event of the insolvency or bankruptcy of the Custodian, the Company will be treated as a general creditor of the Custodian in relation to cash holdings of the Company.

The Investment Manager monitors the credit quality of the Custodian on a monthly basis in order to mitigate risk. The ultimate parent company of the Custodian is the Bank of New York Mellon Corporation, which is a large American financial institution listed on the New York Stock Exchange whose long-term senior debt rating by Standard and Poor's was A at the end of the year (2014:AA).

Details of the credit rating (by percentage of the portfolio) at the year end carried by all investments in interest bearing securities such as bonds and similar financial instruments of the European Short Term Government Bond Fund and the World Bond Fund are listed below:

European Short Term Government Bond Fund

The above information is not available for the European Equity Fund or the Global Equity Fund as they held no investments in interest bearing securities at 31 December 2015 or 31 December 2014.

Liquidity risk

Liquidity risk is the risk that the Company may not be able to generate sufficient cash resources to settle its obligations in full as they fall due or can only do so on terms that are materially disadvantageous.

The Company is exposed to daily cash redemptions of redeemable participating shares. The Company therefore invests its assets in investments that are traded in an active market and can be readily disposed of. Listed securities held by the Funds are considered readily realisable, as they are listed on a stock exchange or dealt on a regulated market. To facilitate an orderly disposition of securities the Directors are empowered, pursuant to the provisions in the Prospectus, to refuse to repurchase any shares in excess of one tenth of the shares in issue in a Fund on any one dealing day.

The following tables summarise the Company's financial liabilities into relevant maturity groupings based on their remaining year at the Statement of Financial Position date to the contractual maturity date. The amounts in the table are the contractual undiscounted cash flows. Balances due within twelve months equal their carrying balances as the impact of discounting is not significant.

As at 31 December 2015:

	Less than 1 month EUR	1-3 months EUR	Total EUR
European Short Term Government Bond Fund

Concentration of risk

Each of the Funds had the following number of shareholders who each held greater than 10% of the value of its redeemable participating shares at the year end:

	31 December 2015	31 December 2014
European Short Term Government Bond Fund	2	2
World Bond Fund	2	2
European Equity Fund	2	3
Global Equity Fund*	-	3
World Equity Fund*	4	-

*The World Equity Fund launched on 20 February 2015. Effective 20 February 2015, the Global Equity Fund merged into the World Equity Fund.

NOTES TO THE FINANCIAL STATEMENTS (continued)
4. Financial risk management (continued)
Fair value estimation

The Company has chosen to early adopt “FRED 62 Draft Amendments to FRS 102 – Fair Value Hierarchy Disclosures”, which is effective for accounting periods beginning on or after 1 January 2017. The Company is required to classify fair value measurements using a fair value hierarchy that reflects the significance of the inputs used in making the measurements.

The fair value hierarchy has the following levels:

- Level 1: The unadjusted quoted price in an active market for identical assets or liabilities that the entity can access at the measurement date.
- Level 2: Inputs other than quoted prices included within Level 1 that are observable (ie developed using market data) for the asset or liability, either directly or indirectly.
- Level 3: Inputs are unobservable (i.e. for which market data is unavailable) for the asset or liability.

The level in the fair value hierarchy within which the fair value measurement is categorised in its entirety is determined on the basis of the lowest level input that is significant to the fair value measurement in its entirety. For this purpose, the significance of an input is assessed against the fair value measurement in its entirety.

If a fair value measurement uses observable inputs that require significant adjustment based on unobservable inputs, that measurement is a level 3 measurement. Assessing the significance of a particular input to the fair value measurement in its entirety requires judgement, considering factors specific to the asset or liability. The determination of what constitutes “observable” requires significant judgement by the Investment Manager. The Investment Manager considers observable data to be those market data that are readily available, regularly distributed or updated, reliable and verifiable, not proprietary, and provided by independent sources that are actively involved in the relevant market.

The following table analyses within the fair value hierarchy the Funds’ financial assets and liabilities measured at fair value as at 31 December 2015:

	Level 1 EUR	Level 2 EUR	Level 3 EUR	Total EUR

*The investment in Sihuan Pharmaceutical Holdings Group was considered level 3 as a result of suspended trading. Trading was resumed on 26 February 2016 on the Hong Kong stock exchange.

NOTES TO THE FINANCIAL STATEMENTS (continued)
5. Operating expenses
Investment management fee

Pursuant to the investment management agreement between the Company and the Investment Manager, the Company pays the Investment Manager an annual investment management fee of:

Fund	Fee expressed as % of the net asset value
European Short Term Government Bond Fund	Up to 0.25%
World Bond Fund	Up to 0.65%
European Equity Fund	Up to 1.25%
Global Equity Fund*	Up to 1.10%
World Equity Fund*	Up to 1.10%

**The World Equity Fund launched on 20 February 2015. Effective 20 February 2015, the Global Equity Fund merged into the World Equity Fund.*

The investment management fee is calculated and accrued on each dealing day and paid quarterly in arrears. In addition, the Investment Manager is entitled to be reimbursed its reasonable vouched out-of-pocket expenses. Each Fund shall bear pro rata its share of such out-of-pocket expenses. Details of the investment management fee accrued and expensed can be found on the Statement of Financial Position and Statement of Comprehensive income respectively.

Administration fee

The Company has appointed BNY Mellon Fund Services (Ireland) Designated Activity Company (the "Administrator") to act as administrator, registrar and transfer agent of the Company. The Administrator receives an administration and transfer agent fee of up to 0.10% per annum of the net asset value of each of the Funds, subject to a minimum annual fee for each Fund of USD 40,000.

The fee is calculated and accrued on each dealing day and paid monthly in arrears. In addition, the Administrator is entitled to be reimbursed its reasonable vouched out-of-pocket expenses, transaction and account fees. Details of the administration fee accrued and expensed can be found on the Statement of Financial Position and Statement of Comprehensive Income respectively.

Custodian fee

The Company has appointed the Custodian to act as the custodian to the Company. The Custodian's fee comprises a fee of up to 0.02% per annum of the net asset value of each of the Funds exclusive of transaction charges which are at normal commercial rates, subject to a minimum fee of USD 10,000 per Fund per annum. Each Fund may have one or more separate sub-accounts within each Fund for account management purposes. An annual maintenance fee of USD 3,000 per account is payable.

The Custodian's fee is accrued and calculated daily and paid monthly in arrears. In addition, the Custodian is entitled to be reimbursed its reasonable fees and customary agent's charges paid by the Custodian to any sub-custodian (which are charged at normal commercial rates) together with value added tax, if any, thereon. Details of the custodian fee accrued and expensed can be found on the Statement of Financial Position and Statement of Comprehensive income respectively.

Shareholder expenses

A transaction charge of up to 3% of repurchase monies may, at the sole discretion of the Investment Manager, be deducted and retained by a Fund to cover the Company's estimate of the costs of disposing of securities to fund a repurchase. There was no transaction charge of repurchase monies for the year ended 31 December 2015 or 31 December 2014.

Distribution fees

The Investment Manager is entitled to a fee in respect of its distribution services of up to 0.55% per annum of the average net asset value of that Fund. The Investment Manager has agreed to waive this fee for the year ended 31 December 2015 (2014: waived).

NOTES TO THE FINANCIAL STATEMENTS (continued)
5. Operating expenses (continued)
Audit fees including expenses

The auditors' remuneration comprises the following:

	31 December 2015	31 December 2014
	EUR	EUR
Audit of Company accounts (excluding VAT)	38,450	35,950
Tax advisory services (excluding VAT)	-	10,000
Assurance services (excluding VAT)	8,060	-
Auditors' remuneration	46,510	45,950

There were no other assurance services, tax advisory services or other non-audit services provided by PricewaterhouseCoopers as the auditor of the Company.

Rebate

In order to maintain the Company's total expense ratios ("TER") at a competitive level with regard to comparable funds in the market place, the Investment Manager has voluntarily undertaken to pay the Company a sum equivalent to the percentage amount, if any, by which the TER of each Fund exceeds an agreed TER limit.

The TER limit for each Fund, for the years ended 31 December 2015 and 31 December 2014 is as follows:

Fund	% of the net asset value
European Short Term Government Bond Fund	0.45%
World Bond Fund	0.85%
European Equity Fund	1.55%
Global Equity Fund*	1.30%
World Equity Fund*	1.30%

**The World Equity Fund launched on 20 February 2015. Effective 20 February 2015, the Global Equity Fund merged into the World Equity Fund.*

The Investment Manager may, at its sole discretion, end this agreement at any time.

Transaction costs

During the year the Funds incurred transaction costs related to the buying and selling of equities and future contracts, which have been included in the "Net gains/(losses) on financial assets and financial liabilities at fair value through profit or loss" in the Statement of Comprehensive Income. The following table shows the transaction costs for the years ended 31 December 2015 and 31 December 2014.

	31 December 2015	31 December 2014
	EUR	EUR
European Short Term Government Bond Fund	311	-
European Equity Fund	260,935	181,936
Global Equity Fund*	14,339	71,719
World Equity Fund*	188,263	-
Total	463,848	253,655

Please refer to note 1 for further details on transaction costs.

**The World Equity Fund launched on 20 February 2015. Effective 20 February 2015, the Global Equity Fund merged into the World Equity Fund.*

NOTES TO THE FINANCIAL STATEMENTS (continued)

7. Related party transactions

Br. Michael W. O'Hern is President and Chief Executive Officer of the Investment Manager. Mr. David Skelding is Executive Vice President, General Counsel and Chief Compliance Officer of the Investment Manager with responsibility for all legal and compliance matters. They are also Directors of the Company. There were no Directors' fees paid to them by the Company for the year ended 31 December 2015 (31 December 2014: Nil). Details of the Directors' fees charged during the year and payable at year end are detailed in the Statement of Comprehensive Income and Statement of Financial Position respectively.

Investment management fees charged during the year and payable at year end are detailed in the Statement of Comprehensive Income and Statement of Financial Position respectively. Expense reimbursement by the Investment Manager and reimbursement receivable at year end are detailed in the Statement of Comprehensive Income and Statement of Financial Position respectively.

Other than those noted in Note 3 to the financial statements, the Directors had no interests in the shares of the Company during the year to 31 December 2015 or during the year to 31 December 2014.

8. Taxation

Under current law and practice the Company qualifies as an investment undertaking as defined in Section 739B of the Taxes Consolidation Act, 1997, as amended. On that basis, it is not generally chargeable to Irish tax on its income or gains. However, Irish tax may arise on the happening of a "chargeable event". A chargeable event includes any distribution payments to shareholders or any encashment, redemption, cancellation or transfer of shares.

No Irish tax will arise on the Company in respect of chargeable events in respect of:

- (a) a shareholder who is neither Irish resident nor ordinarily resident in Ireland for tax purposes, at the time of the chargeable event, provided appropriate valid declarations in accordance with the provisions of the Taxes Consolidation Act, 1997, as amended, are held by the Company; and
- (b) certain exempted Irish tax resident shareholders who have provided the Company with the necessary signed statutory declarations.

Dividends, interest and capital gains (if any) received on investments made by the Company may be subject to withholding taxes imposed by the country from which the investment income/gains are received and such taxes may not be recoverable by the Company or its shareholders.

9. Financial derivative instruments

Except where otherwise stated in the investment objectives and policies of a Fund in the Prospectus, the Funds may invest in FDI for investment purposes and for efficient portfolio management purposes or to protect against foreign exchange rate risks, subject to the conditions and within the limits laid down by the Central Bank. The European Short Term Government Bond Fund invested in exchange-traded government futures contracts for the purposes of managing portfolio duration. Efficient portfolio management transactions relating to the assets of a Fund may be entered into with one of the following aims: hedging, reducing risks or costs, or increasing capital or income returns.

Details of the FDI in which the Funds have invested are disclosed in the relevant Portfolio of Investments.

The Funds classify FDI as financial assets or financial liabilities at fair value through profit or loss. Gains and losses arising from changes in the fair value of the FDI are presented in the Statement of Comprehensive Income in the period in which they arise.

During the years ended 31 December 2015 and 31 December 2014 the Funds did not engage in the efficient portfolio management techniques of stocklending, repurchase agreements and reverse repurchase agreements.

NOTES TO THE FINANCIAL STATEMENTS (continued)
10. Net asset value

The net asset value of each class of participating share is determined by dividing the value of the net assets of the Fund by the total number of participating shares in issue at the year end.

	31 December 2015	31 December 2014
	EUR	EUR
Net asset value:		
European Short Term Government Bond Fund	69,801,461	56,504,347

Global Equity Fund*	-	183.3791
World Equity Fund*	98.7100	-

**The World Equity Fund launched on 20 February 2015. Effective 20 February 2015, the Global Equity Fund merged into the World Equity Fund.*

11. Soft commission arrangements

Los Angeles Capital Management and Equity Research Inc. (“Los Angeles Capital”), the sub-investment manager of the World Equity Fund, entered into soft commission arrangements with third parties under which the third party provides research and research products which are used to assist in the provision of investment services to the Fund. Los Angeles Capital’s soft commission arrangements comply with the Chartered Financial Analyst (“CFA”) Institute Soft Dollar Standards and satisfy the safe harbor provisions under Section 28(e) of the Securities and Exchange Act of 1934. Schroder Investment Management Limited, the sub-investment manager of the World Bond Fund, does not generate any soft commissions for portfolio activity in the U.K. Other than the above, neither the Investment Manager nor any of its sub-investment managers entered into any other soft commission arrangements during the period.

NOTES TO THE FINANCIAL STATEMENTS (continued)**12. Exchange rates**

The following Euro exchange rates were used at 31 December 2015 and 31 December 2014:

Currency Description	Currency	31 December 2015	31 December 2014
Australian Dollar	AUD	1.4914	1.4817

Taiwan Dollar	TWD	35.7410	38.2901
Thai Baht	THB	39.1484	39.8049
US Dollar	USD	1.0866	1.2100

13. Segregated liability

The Company is incorporated as an umbrella fund with segregated liability between Funds and as such, as a matter of Irish law, the assets of the Company will not be exposed to the liabilities of the Company's other Funds. Each Fund will be responsible for paying its fees and expenses regardless of its profitability. Notwithstanding the foregoing, there can be no assurance that, should an action be brought against the Company in the courts of another jurisdiction, the segregated nature of the Funds would necessarily be upheld.

14. Commitments and contingent liabilities

There were no significant commitments or contingent liabilities at the year end, or at the previous year ends.

15. Significant events during the year

Effective 20 February 2015, the Shareholders of the Global Equity Fund approved the merger of the Global Equity Fund into the World Equity Fund by way of the transfer of the assets of the Global Equity Fund into the newly launched World Equity Fund. The Shareholders in the Global Equity Fund were issued with shares in the World Equity Fund. Upon the issue of the shares in the World Equity Fund, each Shareholder's shares in the Global Equity Fund were cancelled.

KB Associates were appointed as governance support provider to the Company on 21 August 2015.

Other than as above, there were no significant events affecting the Company during the year.

NOTES TO THE FINANCIAL STATEMENTS (continued)

16. Subsequent events

With effect from 4 January 2016, Degroof Fund Management Company SA, which is appointed as a sub-investment manager of the European Short Term Government Bond Fund, the World Bond Fund and the European Equity Fund, merged with Petercam Institutional Asset Management SA and Petercam Institutional Asset Management SA was renamed Degroof Petercam Asset Management SA. There is no change in the investment management of the relevant Funds as a result of the merger and change of name.

Effective 28 January 2016, the Administrator changed its name from BNY Mellon Fund Services (Ireland) Limited to BNY Mellon Fund Services (Ireland) Designated Activity Company. The Company converted to a designated activity company under the Companies Act 2014.

Effective 18 March 2016, the UCITS V Directive will apply to the Company. There is no impact on the current years financial statements.

Other than as above, there have been no significant subsequent events affecting the Company since the year end and up to the date of approval of these financial statements, 13 April 2016.

17. Approval of financial statements

The financial statements were approved by the Directors on 13 April 2016.

**STATEMENT OF CHANGES IN COMPOSITION OF PORTFOLIO (unaudited)
FOR THE YEAR ENDED 31 DECEMBER 2015**

In accordance with the UCITS Regulations, a statement of the largest changes in the composition of the Portfolio of Investments during the year is provided to ensure that the shareholders can identify changes in the investments held by the Funds. These statements present the aggregate purchases and sales of an investment, exceeding 1% of the total value of purchases and sales for the year. At a minimum the largest 20 purchases and sales are listed. If a Fund enters into less than 20 purchases or sales during the year, then all transactions are presented.
