## ATTRIBUTION

### 3-Month / YTD Review

- The primary source of the outperformance was the restrictions in Health Care.
- Information Technology also added to the outperformance.
- All other sectors were in line with the index.

### Current Positioning

- Restrictions are most prominent in Health Care, Consumer Staples, and Industrials. When there are significant differences in performance, the differences will most likely be from one or more of these economic sectors.
- Health Care is underweighted compared to the Benchmark.
