How did the Fund perform in the last year?

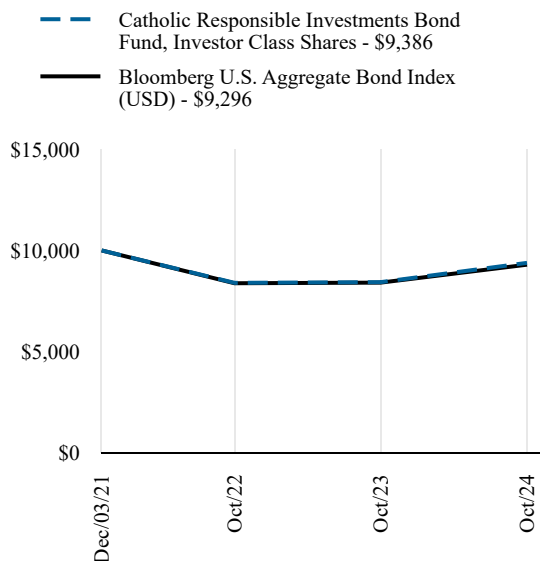

The Catholic Responsible Investments Bond Fund (the "Fund") seeks current income and long-term capital appreciation. Under normal circumstances, the Fund invests at least 80% of its net assets, plus any borrowings for investment purposes, in fixed income securities and other debt instruments. The Fund's assets are allocated across different fixed-income market sectors and maturities. For purposes of the Fund's 80% investment policy, fixed-income securities and debt instruments include mortgage related securities, including mortgage-backed securities ("MBS") and adjustable rate mortgages ("ARMs"); U.S. and non-U.S. corporate debt securities; Yankee Bonds (dollar-denominated obligations issued in the U.S. by non-U.S. banks and corporations); fixed income securities issued or guaranteed by the U.S. government, non-U.S. governments, or by any U.S. government or non-U.S. government agency or instrumentality; municipal bonds; asset-backed securities; debt issuances of REITs; convertible bonds; preferred stock; covered bonds and bonds issued by U.S. colleges and universities; leveraged bank loans; commercial paper; floating rate notes and other securities included in the Index (defined below). The Fund may enter into repurchase agreements covering the foregoing securities. The Fund may invest up to 10% of its assets in debt securities that are rated below investment grade (commonly referred to as "high-yield" or "junk bonds"). The Fund's fixed income securities may include unrated securities, if deemed by the Sub-Advisers to be of comparable quality to allowable investment grade and non-investment grade securities. Some of these investments in derivatives will cause the Fund to be, in part, indirectly exposed to companies that would otherwise be screened out by the Adviser's Catholic Responsible Investments screening criteria. Accordingly, the Fund limits such investments to situations where they (a) do not constitute, in the aggregate, more than 5% of the Fund's investments at any time, and (b) where the Adviser determines such investments are necessary to achieve the Fund's investment objective and when the Adviser believes there are no reasonable alternative investments that exist that are consistent with its Catholic Responsible Investing screening criteria.

CRI Bond Fund Review

Global markets had a strong fiscal year. The Federal Reserve joined other central banks towards the end of the period in rate cuts. China's stimulus led to a sharp equity rally, after years of weak performance. Global inflation improved, corporate profits were solid, and the economy stayed strong, though some weak data caused volatility, especially in August. Investors are now focused on growth and the potential for a soft landing as inflation declines. The fiscal year ended on an optimistic note with signs of economic resilience. The fund generated positive returns and exceeded the benchmark net-of-fees.

How did the Fund perform since inception?

Householding

Rule 30e-1 of the Investment Company Act of 1940 permits funds to transmit only one copy of a proxy statement, annual report or semi-annual report to shareholders (who need not be related) with the same residential, commercial or electronic address, provided that the shareholders have consented in writing and the reports are addressed either to each shareholder individually or to the shareholders as a group. This process is known as “householding” and is designed to reduce the duplicate copies of materials that shareholders receive and to lower printing and mailing costs for funds. Once implemented, if you would like to discontinue householding for your accounts, please call toll-free at 866-348-6466 to request individual copies of these documents. Once the Fund receives notice to stop householding, we will begin sending individual copies 30 days after receiving your request.
