#### What were the Fund costs for the last year?

(based on a hypothetical \$10,000 investment)

<u>Fund Name</u>	<u>Costs of a \$10,000 investment</u>	<u>Costs paid as a percentage of a \$10,000 investment</u>
Catholic Responsible Investments Equity Index Fund, Institutional Class Shares	\$10	0.09%

#### How did the Fund perform in the last year?

The Fund seeks to replicate as closely as possible, before expenses, the performance of the S&P 500<sup>®</sup> Index.

The Fund uses a passive optimization process managed by Rhumblin Advisers, the Fund's Sub-Adviser ("Sub-Adviser"), which is designed to track the performance of the S&P 500<sup>®</sup> Index (the "Index"). The Fund is not managed according to traditional methods of "active" investment management, which involve the buying and selling of securities based upon economic, financial and market analysis and investment judgment. Instead, the Fund, using an "indexing" investment approach, attempts to replicate, before expenses, the performance of the Index. The Index is a well-known stock market index that includes common stocks of approximately 500 companies from all major industries representing a significant portion of the market value of all common stocks publicly traded in the United States, most of which are listed on the New York Stock Exchange. Under normal circumstances, the Fund intends to invest at least 95% of its net assets, plus any borrowings for investment purposes, in securities listed in the Index.

#### CRI Equity Index Fund Review

Global markets delivered strong performance over the fiscal year, despite periods of heightened volatility. Market fluctuations were driven by shifts in monetary policy, evolving tariff expectations, and ongoing trade negotiations influenced by U.S. policy. Geopolitical tensions in the Middle East added further uncertainty to the economic landscape.

Yet, resilience remained a defining feature of global markets. Investor confidence held firm, supported by adaptive strategies and diversified growth across regions. Notably, the Federal Reserve began cutting interest rates in the third and fourth quarters, even as inflationary pressures persisted. This policy pivot underscored the balancing act between sustaining economic momentum and managing price stability.

The Fund's strong fiscal year performance has been driven by the stock market, which has continued to climb throughout 2025, reaching new record highs despite some calls for potential market correction. Technology stocks, in particular the Magnificent 7, performed strongly during this period as well as strong corporate earnings.

#### How did the Fund perform since inception?

##### Total Return Based on \$3,000,000 Investment

### Householding

Rule 30e-1 of the Investment Company Act of 1940 permits funds to transmit only one copy of a proxy statement, annual report or semi-annual report to shareholders (who need not be related) with the same residential, commercial or electronic address, provided that the shareholders have consented in writing and the reports are addressed either to each shareholder individually or to the shareholders as a group. This process is known as “householding” and is designed to reduce the duplicate copies of materials that shareholders receive and to lower printing and mailing costs for funds. Once implemented, if you would like to discontinue householding for your accounts, please call toll-free at 866-348-6466 to request individual copies of these documents. Once the Fund receives notice to stop householding, we will begin sending individual copies 30 days after receiving your request.
